

# 10L Fm200 Automatic Fire Extinguisher For Sever Room

## **Basic Information**

Place of Origin: ChinaBrand Name: xinlin

• Certification: ISO9001,CE,QMS,CCCF,CNAS

Model Number: XQQC10/1.6-XL
Minimum Order Quantity: 10 set system
Price: negotiation

Packaging Details: Plywood outer box with bubble bag or paper

Delivery Time: 10-30 work dayPayment Terms: L/C, T/T

• Supply Ability: 30000 sets per week

## **Product Specification**

Cylinder Material: Steel Fire Suppression Agent: FM200

Mounting Type: Suspended Ceiling

• Nozzle Type: Spray

Operating Temperature: -10°C To 50°CType: Automatic

Model Number: 4KG,6KG,8KG,10kg,20kg,30kg
Fire Extinguishing Method: Fixed Temperature 68°C
Fire Rating: Class A, B, C,E Fires

• High Light: 10L Automatic Fire Extinguishers

Highlight: 10L FM200,

fm200 automatic fire extinguisher xinlin, fire extinguisher for Sever Room xinlin

#### **Technical parameter**

Constant temperature suspension type	XQQC10/1.6-XL
Executive standards	XF13-2006
Filling density	≤1000kg/M <sup>3</sup>
Fire extinguishing method	Fully flood extinguishing
Storage pressure	1.6MPa(+20°C)
Working temperature range	0~50°C
Max working pressure	2.5MPa(+50°C)
System spray time	Computer room≤8S,Others≤10S
Fire extinguishing design concentration	8-10%
Starting Method	Constant temperature 68°C

#### **Environmental performance:**

FM200 (HFC-227ea) is an environmentally friendly fire extinguishing agent with a zero ozone depletion potential (ODP), meaning it does not damage the atmospheric ozone layer. Although its global warming potential (GWP) is relatively high, it is still considered a more environmentally friendly choice compared to some other traditional fire extinguishing agents.

## Safety and reliability:

The suspended FM200 (HFC-227ea) fire extinguisher is equipped with a nitrogen drive system to ensure rapid and accurate release of fire extinguishing agents in emergency situations. In addition, its control system is carefully designed to ensure precise operation and control, improving overall safety and reliability.

## Maintenance and use:

This type of fire extinguisher requires regular maintenance and inspection to ensure proper functioning at critical moments. During use, relevant operating procedures should be followed to ensure personnel safety and fire suppression effectiveness.

Overall, the suspended FM200 (HFC-227ea) fire extinguisher has become an important tool for modern fire safety, providing reliable fire protection solutions for various important facilities due to its high efficiency, environmental protection, safety, and ease of installation.

#### Compositions

Hanging type fm200 fire suppression device can be divided into two types: one is the electromagnetic type, the other is the temperature-based type.

The electromagnetic type hanging fm200 fire suppression device consists of a fm200 cylinder, a container valve, a solenoid actuator, a pressure switch, a stainless steel pipe, and a nozzle.

The temperature-controlled type hanging fm200 fire suppression system prefers a unit of temperature sensor instead of container valve and solenoid valve.

## Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging),portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

## Why choose us

• Efficient management system

- More than 10 years of experience in gas fire fighting industry
- · Advanced equipment and professional engineers
- We provide 8×6 hr technical support and after-sales service

### **Frequently Asked Questions**

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
