

## 2kg Element Portable Fire Extinguisher FM200 Stainless Steel Extinguishers In Fire Fighting Equipment

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: ISO9001, CE, QMS, CCCF, CNAS
- Model Number: MJZ/2-XL
- Minimum Order Quantity: 100 set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, T/T
- Supply Ability: 6000 unit

#### Product Specification

- Capacity: 3kg, 4kg, 5kg, 6kg, 8kg
- Feature: Clean Gas
- Body Material: Stainless Steel
- Object: Class A, B, C, E Fires
- Usage Scenario: Workshop
- Highlight: element portable fire extinguisher, portable extinguisher, 2kg portable fire extinguisher

#### FM200 GAS FIRE EXTINGUISHING DEVICE

FM200 gas fire extinguishing device is currently one of the most widely used types of fire extinguishing. It is clean, environmentally friendly, non-conductive, non-polluting, and does not damage the ozone layer. It can be pressurized and liquefied at room temperature, and all of it evaporates without any fire extinguishing residue. Its fire extinguishing principle mainly interrupts the combustion chain, with high fire extinguishing efficiency and low damage to precision facilities and valuable materials. It is widely used in important places such as motor rooms, archives, oil depots, chemical and flammable material warehouses, etc.

## Product Description

### Product description

#### 2kg Guangdong Supplier Portable Type FM200 Stainless Steel Extinguishers in Fire Fighting Equipment

Handheld FM200 (HFC-227ea) fire extinguisher is a portable fire-fighting equipment, mainly used to extinguish solid material, liquid or gas fires, as well as electrical equipment fires. This fire extinguisher uses FM200 (HFC-227ea) gas as the extinguishing agent, which is released by compressed gas or chemical reaction.

The operation of the handheld FM200 (HFC-227ea) fire extinguisher is very simple. You only need to lift the fire extinguisher and press the spray button to release the extinguishing agent. The fire extinguisher is usually propelled by compressed gas or chemical reaction to spray the extinguishing agent at the fire source.

FM200 (HFC-227ea) fire extinguisher has the advantages of cleanliness, low toxicity, non-electrical conductivity, fast extinguishing speed, and high efficiency. It is particularly suitable for use in places where electronic equipment, precision instruments and other valuables are stored. At the same time, because FM200 (HFC-227ea) is non-electrically conductive, it is also suitable for extinguishing electrical fires.

Before using a handheld FM200 (HFC-227ea) fire extinguisher, you need to check if it is in good condition, confirm that the pressure gauge is normal, and verify if the fire extinguisher is within the valid period. In addition, you also need to understand the correct use method of the fire extinguisher to avoid potential hazards such as spreading fire or endangering personal safety.

In summary, the handheld FM200 (HFC-227ea) fire extinguisher is a highly effective fire-fighting equipment that can quickly extinguish various types of fires and protect people's lives and property.

### Technical parameter

Brand	Xinlin
Model	MJZ/2-XL
Agent	FM200
Working pressure	1.2MPa(20°C)
Working temperature	-10~50°C
Executive standards	GB4351.1-2005
Hydrostatic test pressure	2.1Mpa

### Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

### Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

### Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
