Product Specification

 Capacity: 	40L,70L,100L,120,150L
Feature:	Clean Gas And Environmental Friendly
 Body Material: 	Steel Cylinder
Origin:	Guangzhou, Guangdong, China
• Fire Extinquishing Mothods	: Fully Submerged Fire Extinguishing
Starting Mode:	Automatic, Electrical Manual, Mechanical Emergency
Object:	Class A, B, C, E Fires
Agent:	FM200 Inert Gas Fire Suppression System
• Highlight:	fire alarm module cabinet, FM200 Cylinder Gas, Gas Hfc 227ea

Product introduction

High-Quality Total Flooding FM200 Cylinder Gas Hfc 227ea Fire Fighting Extinguisher

Cabinet FM200(HFC-227ea) device is also known as prefabricated FM200 fire extinguishing device, FM200 gas fire extinguishing device without pipe network, It refers to a fire extinguishing device which is composed of a fire extinguishing agent bottle group container, a cabinet, a signal feedback device, an electromagnetic driving device, a fire extinguishing agent conveying pipe, a nozzle, a pilot valve (suitable for a two-bottle cabinet type), and a gas pipe component (suitable for a two-bottle cabinet type). The fire extinguishing device is divided into two structural forms: two-bottle cabinet type FM200 gas extinguishing device and single-bottle cabinet type FM200 gas extinguishing device.

How it works:

The cabinet FM200(HFC-227ea) fire extinguishing system is composed of gas extinguishing agent bottle group, pipeline, nozzle, signal feedback component, fire detector and controller, emergency start/stop button, sound and light alarm, gas discharge indicator, etc., to realize the automatic detection, alarm and fire protection functions of the protected area. The cabinet FM200 fire extinguishing device is generally installed in the protected area, and is fixed with foot bolts if necessary. The fire detector and controller are installed in place according to the design requirements. When multiple fire extinguishing devices are used in a protected area, the fire extinguishing devices should be evenly distributed, and the spraying should be started at the same time.

Model	GQQ70/2.5-XL-41
Executive standards	GB16670-2006
Filling density	≤1120kg/M ³
Working temperature	0°C~50°C
Storage pressure	2.5MPa(+20°C)
Max working pressure	4.2MPa(+50°C)
System spray time	Computer room≤8s, others≤10s
Fire extinguishing design concentration	8-10%
System startup mode	Automatic,Pneumatic manual,Mechanical emergency
Fire extinquishing mothods	Fully submerged fire extinguishing

Technical parameter

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinetstyle FM200 fire suppression systems, fully automatic fire extinguisher (hanging),portable fire extinguisher,IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- · Efficient management system
- · More than 10 years of experience in gas fire fighting industry
- · Advanced equipment and professional engineers
- We provide 8×6 hr technical support and after-sales service

Frequently Asked Questions

Q1Are you a manufacturer or a trading company? A1: We are the manufacturer.

for more products please visit us on gas-firesuppression.com

 Q2: Do you have OEM orders? A2: Yes, according to the customer's requirements. Q3: Where is your factory located? How do I get there? A3: Our factory is located in Dongzhou Industrial Park, Xintang Town, Zengcheng District, Guangzhou City, Guangdong Province, China. You are very welcome to visit our factory.
