

Mobile Small Car Fire Extinguisher 6 Kg Gas Fire Suppression Device

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: ISO9001,CE,CCCF,examination report
- Model Number: MJZ-F/6-XL
- Minimum Order Quantity: 100 set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 30000 sets per week

Product Specification

- Capacity: 2kg,3kg,4kg,5kg,6kg,8kg
- Feature: Clean Gas
- Body Material: Stainless Steel
- Type: Automatic Fire Extinguisher
- Object: Class A, B, C, E Fires
- High Light: 6Kg Gas Fire Suppression
- Highlight: **Mobile Small Car Fire Extinguisher,
Car Fire Extinguisher 6 Kg,
6 Kg Gas Fire Suppression Device**

Product Description

Product introduction

Portable Mobile Small Car Fire Extinguisher 6Kg Gas Fire Suppression Device

The hanging novac 1230(FK-5-1-12) fire extinguishing device is also one of the gas extinguishing devices without pipe network, which stores the designed fire extinguishing agent in the gas cylinder.

Prefabricated fire extinguishing system equipped with nozzle, electromagnetic drive device, signal feedback device, mounted in the manner of suspension. Manual and automatic start modes are available.

Suitable for distribution room, transformer room, instrument equipment room, small oil depot, computer room, software library, communication computer room, archive room, file management room and other small protection area.

It has the advantages of fast fire extinguishing speed, low toxicity, no fouling to equipment, small occupied area, convenient installation and saving construction cost.

Technical parameter

Brand	Xinlin
Model	MJZ-F/6-XL
Agent	novac 1230
Working pressure	1.2MPa(20°C)
Working temperature	-10~50°C
Executive standards	GB4351.1-2005
Hydrostatic test pressure	2.1Mpa
Expiration date	5 year

Product characteristics

Material: The portable stainless steel fire extinguisher uses stainless steel as the shell material, which has high corrosion resistance and durability, and is also more beautiful. In contrast, regular cylinder fire extinguishers are typically made of steel or plastic, which may not have the same corrosion resistance and durability as stainless steel.

Appearance: The portable stainless steel fire extinguisher has a beautiful appearance, a strong metal texture, and a sense of texture and grade, which is easy to be integrated with other devices, home appliances and other environments. The appearance of ordinary cylinder fire extinguishers is usually more ordinary, and there is no special visual effect.

In addition, due to the corrosion resistance and durability of stainless steel, the service life of portable stainless steel fire extinguishers is longer, and the overall cost is relatively lower in long-term use. However, the price of a stainless steel fire extinguisher may be slightly higher than that of a regular cylinder fire extinguisher.

In general, there are differences between portable stainless steel fire extinguishers and ordinary cylinder fire extinguishers in terms of material, appearance and service life. The choice of fire extinguisher depends on the specific environment and needs.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
