

## 1-10kg FM200 Hfc-227ea portable clean agent fire extinguisher portable fire detection system

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: ISO9001,CE,QMS,CCCF,CNAS
- Model Number: MJZ/4-XL
- Minimum Order Quantity: 100 set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 35000 sets per week

#### Product Specification

- Capacity: 2kg,3kg,4kg,5kg,6kg,8kg
- Feature: Clean Gas And Environmental Friendly
- Body Material: Stainless Steel
- Type: Automatic Fire Extinguisher
- Object: Class A, B, C, E Fires
- Usage Scenario: Fire Extinguisher For Car
- Highlight: **portable clean agent fire extinguisher,  
portable fire detection system,  
1-10kg portable fire extinguisher**

## Product Description

### Product description

#### High Quality Supply 1-10kg FM200 Hfc-227ea Portable Small Fire Extinguisher Sale

Portable FM200 (heptafluoropropane) fire extinguisher is a highly efficient and environmentally friendly fire fighting equipment using FM200 gas as fire extinguishing agent. FM200 gas is a clean, low toxic, non-conductive fire extinguishing agent, which can quickly extinguish all kinds of fires in a short time, especially suitable for electronic equipment, precision instruments and other valuable items.

The use of the portable FM200 fire extinguisher is very simple, just lift the fire extinguisher, point the fire source and press the spray button to release the extinguishing agent. Since FM200 gas is not conductive, it is also suitable for extinguishing electrical fires.

The portable FM200 fire extinguisher is available in a variety of types, such as portable, trolley, etc., for different use scenarios and needs.

Portable portable fire extinguishers are suitable for personal carrying and use, while wheeled fire extinguishers are suitable for large fire sites.

Before using a portable FM200 extinguisher, you need to check that the extinguisher is in good condition, that the pressure gauge is working, and that the extinguisher is within its expiration date. In addition, it is also necessary to understand the correct use of the fire extinguisher before use to avoid the expansion of the fire or a threat to personal safety due to improper use.

### Application scenario

The portable FM200 fire extinguisher is suitable for the following scenarios:

- 1, electronic equipment, precision instruments and other valuables;
- 2, flammable, flammable liquid and gas and paraffin asphalt and other soluble solid fire;
- 3, solid surface fire, electrical fire and live equipment fire;
- 4, often have staff work areas, such as computer room, communication control center, electronic equipment workshop, etc.

### Technical parameter

Brand	Xinlin
Model	MJZ/4-XL
Agent	FM200
Working pressure	1.2MPa(20°C)
Working temperature	-10~50°C
Executive standards	GB4351.1-2005
Hydrostatic test pressure	2.1Mpa

### Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

### Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

### Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
