

Automatic Clean Agent Fk-5-1-12 Novec 1230 Human Safety Device For Storage Room

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Guangzhou Xinlin Firefighting Equipment Co., Ltd.
- Certification: ISO9001,CE,CCCF,examination report
- Model Number: MJZ-F/12-XL
- Minimum Order Quantity: 100 set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Capacity: 3kg,4kg,5kg,6kg,8kg,12kg
- Feature: Clean Gas And Environmental Friendly
- Body Material: Stainless Steel
- Medium: Novec1230
- Object: Class A, B, C, E Fires
- High Light: Fk-5-1-12 Fire Extinguisher
- Highlight: **novec 1230 human safety, novtec 1230 gas, fk-5-1-12 novtec 1230**

Product Description

Product comparison

High Efficiency Fire Extinguisher Automatic Clean Agent Fk-5-1-12 Device for Storage Room

Perfluorohexanone fire extinguisher

Perfluorohexanone is a new generation of clean fire extinguishing gas, rapid vaporization after ejecta, no toxicity and corrosion, ODP is zero, itself has high insulation, easy to vaporize after ejecta, no residue after extinguishing, will not cause secondary pollution. Perfluorophenone extinguishers can extinguish Class A, B, E, and F fires with ease for common cushion fires, gasoline fires, electrical fires, and cooking fires. At present, it has been widely used in libraries, archives and other fields;

Dry powder fire extinguisher

1, often used in class A, class B, class C fires, can only extinguish general electrical fires (Class E fires), fire extinguishing time is long, easy to reignite after extinguishing.

2, when extinguishing the fire, the spray of powder will produce smoke, which is easy to cover the line of sight, and may seriously affect the user's breathing and cannot continue to use.

3, after extinguishing the fire, the powder is difficult to clean up, it is not environmentally friendly, and the agent has a certain corrosiveness, it will cause serious economic losses.

Foam extinguisher

1, foam fire extinguisher is mainly used to put out all kinds of solid combustible fires, fire extinguishing agent is clean water and environmentally friendly foam, tasteless, non-toxic, no dust and other residues, no trace after extinguishing, will not cause secondary pollution, do not destroy the atmospheric ozone layer.

2, when used, the foam fire extinguisher needs to always maintain the inverted state, otherwise it will interrupt the injection, and with the continuous injection, the spray distance of the fire extinguisher will continue to shorten, and the user needs to continue to approach the burning source.

Water-based fire extinguisher

1, the fire extinguishing principle of water-based fire extinguisher is cooling and isolation, rapid evaporation after ejecting, reduce the temperature of the fire site, while the agent will form a thin water film on the surface of the combustion material, so that the combustion material is isolated from the oxygen in the air to prevent reignition.

2, water-based fire extinguisher harmless to the human body, green environmental protection, in the fire, can be directly sprayed on the human body, to avoid the flame caused by the human body, reduce burns.

Technical parameter

Brand	Xinlin
Model	MJZ-F/12-XL
Agent	FM200
Working pressure	1.2MPa(20°C)
Working temperature	-10~50°C
Executive standards	GB4351.1-2005
Hydrostatic test pressure	2.1Mpa
Expiration date	5 year

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
