

FM200 Portable Type Fire Extinguisher Portable Fire Fighting Equipment Unit Telecommunication Room

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: ISO9001,CE,QMS,CCCF,CNAS
- Model Number: MJZ/12-XL
- Minimum Order Quantity: 10 set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Capacity: 2kg,3kg,4kg,5kg,6kg,8kg,12kg
- Body Material: Steel Cylinder
- Object: Class A, B, C, E Fires
- Usage Scenario: Bus
- Feature: Clean Gas
- Highlight: portable type fire extinguisher,
portable fire fighting equipment,
portable fire fighting unit

Product Description

Product introduction

FM200 Fire Protect System Without Pollution Extinguisher for Telecommunication Room

Portable stainless steel FM200 fire extinguisher is a kind of fire extinguishing equipment, with high efficiency, environmental protection, safety and other characteristics.

FM200 is a colorless, odorless, low toxic, non-conductive gas with good fire extinguishing effect. This fire extinguisher uses sevofluoropropane as a extinguishing agent, and inhibits the flame combustion by spraying FM200 gas, so as to achieve the purpose of extinguishing the fire.

Portable stainless steel FM200 fire extinguisher appearance is usually stainless steel material, with corrosion resistance, beautiful and generous characteristics. It is driven by compressed gas, easy to operate, can quickly and effectively put out the initial fire, suitable for all kinds of places, such as computer room, archive room, power distribution room, laboratory and so on.

In addition, the portable stainless steel SEvofluoropropane extinguisher is also environmentally friendly, as FM200 does not leave any residue after extinguishing the fire and does not cause pollution to the environment. At the same time, the fire extinguisher also has safety, because its operation is simple and will not cause harm to the human body.

Technical parameter

Brand	Xinlin
Model	MJZ/12-XL
Agent	FM200
Working pressure	1.2MPa(20°C)
Working temperature	-10~50°C
Executive standards	GB4351.1-2005
Hydrostatic test pressure	2.1Mpa

How to use

1. Place the fire extinguisher in a dry and ventilated place to ensure that it will not be affected by the fire source or high temperature objects to avoid accidents.
2. When in use, hold the nozzle part with one hand (the part with the lifting ring), and press down the handle with the other hand (the part without the lifting ring). When you hear a spray sound, stop pressing the handle and quickly lift the lever.
3. When using fire extinguishers, they must be operated by trained personnel to ensure safety and effectiveness.
4. After each use, the dirt on the bottle head and nozzle should be cleaned in time to prevent blockage or damage to the nozzle. This helps maintain the normal use and performance of the fire extinguisher.
5. regularly check whether the pressure gauge is sensitive and reliable. If the pointer of the pressure gauge points to the red area, it indicates that the device may be leaking or damaged; If the pointer points to the yellow area, it indicates that there is no gas remaining in the system. If it is pointed to the green area, it indicates that the device is normal.
6. if there is a flameout phenomenon during use, the power switch should be cut off in time and then re-open the fire fighting equipment for fire extinguishing treatment, to avoid the spread of fire caused by long-term power.
7. the use process should be away from heat sources and strong oxidants and other substances, so as not to cause corrosive damage, affect the normal use of the fire extinguisher effect and reduce its service life.
8. it is strictly prohibited to disassemble, modify, repair and use fire products to ensure their safety and effectiveness.
9. prohibit the use of fire extinguishers in places with damp and corrosive gases, so as not to affect its performance and service life.

10. It is forbidden to connect electrical equipment and circuit boards to prevent electric shock accidents.

By following the above steps and using precautions, you can ensure the effective use of portable stainless steel SEvofluoropropane fire extinguishers and maximize the protection of personnel and property.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are the manufacturer.

Q2: Do you have OEM orders?

A2: Yes, according to the customer's requirements.

Q3: Where is your factory located? How do I get there?

A3: Our factory is located in Dongzhou Industrial Park, Xintang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

You are very welcome to visit our factory.
