

Gas Pressure 4.2MPa Pipe Line Type Fm-200 Fire Suppression System For Server Room

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: ISO9001,CE,QMS,CCCF,CNAS
- Model Number: XL-06
- Minimum Order Quantity: 1set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 85000 sets per week

Product Specification

- Starting Mode: Automatic, Electrical Manual, Mechanical Emergency
- Company Type: Manufacturer Over 10-Years
- Feature: Clean Gas And Environmental Friendly
- Body Material: Steel Cylinder
- Transport Package: Wooden Box
- Package Size: 500.00cm * 540.00cm * 1700.02cm
- Storage Pressure: 4.2MPa
- Maximum Working Pressure: 5.3MPa
- Fire Extinguishing Methods: Total Flooding
- Customization: Gas Fire Suppression | Customized Request
- Fire Rating: Class A, B, C,E Fires
- Application Scenario: Communication Room
- Highlight: **fm-200 fire suppression system for server room**
, fm200 fire suppression systems, fm-200 gas

Product Description

Product description

Industrial Sale Pressure 4.2MPa Pipe Line Type FM200 Fire Extinguisher Device

The FM200 (hfc-227ea) gas suppression system is an advanced fire suppression system that provides fast, effective and safe fire protection. Suitable for protecting high-value assets that are prone to fire and can also be used in places where people are present. It is flexible in construction, easy to install and comes with the Sunlin/OEM brand name. It can be started automatically, electrically or manually in case of emergency. It also has an ambient temperature range of 0 ° C to 50 ° C.

Technical parameter

Model	XL-06
Executive standards	GB25972-2010
Storage pressure	4.2Mpa(+20°C)
Working temperature range	0~50°C
Filling density	≤950kg/M ³
Maximum working pressure	5.3Mpa(+20°C)
System spray time	Computer room≤8S,Others≤10S
Fire extinguishing methods	Total flooding
Fire extinguishing design concentration	8-10%
Starting Method	Automatic, pneumatic, manual mechanical emergency start

Usage Method

When using the FM200 clean agent fire extinguishing system, adhere to the following steps:

Confirm Safe Distance: Operators must ensure they maintain a safe distance from the fire scene to avoid direct contact with the source of the flames.

Manual Activation: After confirming safety conditions, the operator should manually activate the FM200 system according to the following procedures:

Keep the pressure gauge within the normal operating range.

Slowly open the main valve.

Start the pump station and wait for the system pressure to reach the preset value.

Upon thorough inspection and verification that all is in order, the operator can proceed to initiate the firefighting process.

Note that specific operational procedures may vary depending on different systems and equipment configurations. Therefore, prior to using the FM200 system, it is essential to familiarize oneself with the system's operation manual and to ensure compliance with all safety regulations and guidelines provided.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Common problems

Q: What is the brand name of the storage pressure fire extinguishing system in FM200?

A: The brand of FM200 internal storage pressure fire extinguishing system is Guangzhou Xinlin Fire Equipment Co., LTD.

Q: What are the models of FM200 internal pressure storage fire extinguishing system?

A: There are 100L, 120L and 150L available models for FM200 internal pressure storage fire extinguishing system.

Q: Where is the storage pressure fire extinguishing system in FM200 manufactured?

A: FM200 internal pressure storage fire extinguishing system is manufactured in Guangzhou, Guangdong Province, China.

Q: What are the characteristics of FM200 internal pressure storage fire extinguishing system?

A: FM200 internal pressure storage fire extinguishing system is efficient, environmentally friendly, safe and reliable, and has a high degree of automation
