# 20KG FM200 Hanging Fire Fighting Equipment For Sever Room Automatic Fire Extinguishers

# **Basic Information**

- Place of Origin:
- Brand Name:
- Certification:
- Model Number:
- Minimum Order Quantity: 2set system
- Price:
- Packaging Details:
- Delivery Time:
- Payment Terms:
- Supply Ability:
- Supply Ability.

## **Product Specification**

 Starting Mode: Automatic, Electrical Manual, Mechanical Emergency 4kg,6kg,8kg,10kg,20kg,30kg Capacity: Manufacturer Over 10-Years Company Type: Environmental Friendly Gas Feature: Body Material: Steel Cylinder Specification: 20kg Package Size: 320.00cm \* 320.00cm \* 405.00cm 1.6MPa Storage Pressure: • Max Working Pressure: 2.5MPa Fire Extinguishing Method: Fully Flood Extinguishing Fire Rating: Class A, B, C, E Fires • High Light: 20L FM200 Fire Fighting Equipment Highlight: FM200 Fire Fighting Equipment, 20KG Fire Fighting Equipment, 20KG FM200

Our Product Introduction

# **Product description**

## 20KG Hanging FM200 Fire Fighting Equipment for Sever Room Automatic Fire Extinguishers

The suspended electromagnetic FM200 (HFC-227ea) is an advanced firefighting device that uses electromagnetic starting method to quickly start and extinguish the fire source during a fire. Its working principle is to use a solenoid valve to activate the extinguishing agent, allowing it to be quickly released to the fire source to achieve the purpose of extinguishing the fire. Compared to traditional mechanical fire extinguishers, the suspended electromagnetic FM200 (HFC-227ea) fire extinguisher has higher starting speed and accuracy, and can more effectively extinguish various types of fires.

In addition, FM200 (HFC-227ea) fire extinguishing agent has the characteristics of cleanliness, low toxicity, good electrical insulation, high fire extinguishing efficiency, and no damage to the atmospheric ozone layer. It is a superior alternative to halon fire extinguishing agents in clean gases. As an ideal replacement for halon, it can be used as a total flooding fire extinguishing system in populated areas according to toxicity indicators, and can be used to protect places where people often work or stay.

In short, the suspended electromagnetic FM200 (HFC-227ea) fire extinguisher is an efficient, accurate, and environmentally friendly fire fighting device that can quickly extinguish various types of fires and protect people's lives and property.

### **Technical parameter**

Executive standards	XF13-2006
Filling density	≤1000kg/M <sup>3</sup>
Fire extinguishing method	Fully flood extinguishing
Storage pressure	1.6MPa(+20°C)
Working temperature range	0~50°C
Max working pressure	2.5MPa(+50°C)
System spray time	Computer room≤8S,Others≤10S
Fire extinguishing design concentration	8-10%
Starting Method	Automatic, pneumatic, manual mechanical emergency start

#### **Company profile**

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products. Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging),portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines. With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

## Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8×6 hr technical support and after-sales service

#### **Frequently Asked Questions**

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
