

Inert Gas 3kg Novec1230 Portable Small Fire Extinguisher Oem

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: ISO9001,CE,CCCF,examination report
- Model Number: MJZ-F/3XL
- Minimum Order Quantity: 10 set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15work day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 30000 sets per week

Product Specification

- Capacity: 2kg,4kg,5kg,6kg,8kg
- Feature: Clean Gas And Environmental Friendly
- Body Material: Stainless Steel
- Medium: Novec1230
- Object: Class A, B, C, E Fires
- High Light: Novec 1230 Fire Extinguishers
- Highlight: **3kg Novec1230, novec 1230 inert gas, novec 1230 oem**

Product Description

Product introduction

High Quality Supply 3kg Novec1230 Portable Small Fire Extinguisher Sale

Overview of fire extinguishing agents

A new type of clean gas fire extinguishing agent, perfluorohexanone (FK-5-1-12), also known as novec 1230, the molecular formula is $C_6F_{12}O$, the relative molecular mass is 316.04, at room temperature is a clear, colorless, odorless, tasteless, liquid fire extinguishing agent that can easily vaporize. novec 1230 gas extinguishing agent does not contain Australian and chlorine elements, does not destroy the ozone layer after extinguishing the fire, and its ozone depletion potential value is zero.

At the same time, more importantly, unlike HFCS, novec 1230 has a very low greenhouse potential GWP =1, which is comparable to CO_2 , and the survival life of perfluorohexanone in the atmosphere is very short, only 3-5 days, so it fundamentally solves the environmental pollution problem caused by halon and HFCS.

Because novec 1230 is environmentally friendly, safe for personnel, non-conductive, does not leave residue after extinguishing, does not damage equipment and has excellent fire extinguishing performance, it is known for its excellence. Solid green fire extinguishing agent, so the application range is very wide.

Fire extinguishing principle

First: cooling fire suppression: After novec 1230 liquid high-speed atomization is sprayed, it is vaporized in case of heat, due to the large heat capacity of gasification, it has strong heat absorption ability, so that the flame quickly loses heat and destroys the tetrahedral balance of the fire.

Second: Asphyxiation fire suppression: novec 1230 is heavy, and in the process of floating down, it can isolate oxygen in the air around the flame.

Third: Chemical suppression of fire suppression: can capture the free radicals of the burning chain reaction, termination of the flame propagation of the chain reaction.

Technical parameter

Brand	Xinlin
Model	MJZ-F/3XL
Agent	novec 1230
Working pressure	1.2MPa(20°C)
Working temperature	-10~50°C
Executive standards	GB4351.1-2005
Hydrostatic test pressure	2.1Mpa
Expiration date	5 year

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
