Product Description

Fm200 cylinder gas for hfc-227ea fire extinguishing system

Product Description

Fm200 containers can be divided into many models according to volume inside, such as 40L, 70L, 90L, 100L, 120L, 150L etc. Of course, every country has its own design standard. So if you have a special model of cylinders different from ours, you can just contact us and let us know. We can customize the model that you want. The premise is that your quantity reaches batch jobs.

Fm200 cylinders can be made into two types according to pressure standard. Here we have seamless and welded steel cylinders. If you need high pressure when you save gas inside, it should be seamless steel cylinders. On the contrary, you can choose welded steel cylinder. It will save cost for you on condition that the cylinder will function.
