

Engine Room Fm200 Gas Cylinder Cleaning Agent Fire Extinguishing System

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: ISO9001,CE,CCCF,CNAS,QMS
- Model Number: 70L,90L,100L,120L,150L
- Minimum Order Quantity: 200 sets
- Price: negotiation
- Packaging Details: Plywood case
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 40000 sets per week

Product Specification

- Origin: Guangzhou, Guangdong
- Apply: FM200,IG541,IG100
- Model: HJ120L-2.5/01-XL
- Supply Ability: 80000
- Cylinder Material: Steel Material
- Usage Scenario: Archives
- Use: Gas Fire Suppression
- Working Temperature: 0c-50c
- Highlight: fm200 gas cylinder,
cleaning agent fire extinguishing system,
fm200 cylinder

Product Description

Description:

Engine room FM200 cleaning agent fire extinguishing system cylinder High Quality

Welding steel cylinders have a variety of uses, including the following:

Industrial applications: Welding steel cylinders are widely used in the chemical, petroleum, medical, metal processing and other industrial fields as containers for storing gases or liquids.

Gas industry: Welding steel cylinders can be used to store and transport liquefied petroleum gas, propane, natural gas and other gases for domestic and industrial purposes.

Welding operations: Welding steel cylinders are mainly used to provide oxygen, nitrogen, argon and other gases for welding operations.

Breathing gas: Welding steel cylinders can be used to provide breathing gas, such as in diving, aerospace, tunnel construction and other fields to supply oxygen and compressed air.

Laboratory applications: In the laboratory, welding steel cylinders are commonly used as containers for storing standard gases, sample gases, and reaction gases to support various experiments.

Other special purposes: Welding steel cylinders can also be used as gas supply sources in medical devices such as ventilators, anesthetic machines and other medical equipment; or as containers for storing refrigerants, propellants and other special purposes.

Company introduction

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic FM200 extinguishers (ceiling-mounted), IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

Due to our high-quality products, impeccable services, and strong reputation, our company has earned widespread acclaim from customers across China.
