

## 8KG Automatic Engine Fire Extinguisher For Electrical Room Car Server Room Auto Novec1230 Novec

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: Guangzhou Xinlin Firefighting Equipment Co., Ltd.
- Certification: ISO9001,CE,QMS,CCCF,CNAS
- Model Number: QMP-Y3/2.5-S
- Minimum Order Quantity: 100 set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50000 sets per week

#### Product Specification

- Application: Indoor
- Capacity: 3KG/4KG/6KG/8KG
- Feature: Clean Gas And Environmental Friendly
- Body Material: Steel Cylinder
- Color: Red
- Object: Class A, B, C, E Fires | Customized Request
- High Light: 8KG (large Diameter) Multiple Eruptions
- Highlight: **automatic fire extinguisher for electrical room,  
automatic fire extinguisher for server room,  
automatic fire extinguisher for car**

## Product Description

### Description

#### 8KG Wholesale Fire System Auto Novec1230 Novec Fire Extinguisher

(Small diameter)The one-time eruption prefabricated FM200 fire extinguisher is a small, convenient and efficient one-time use fire extinguishing equipment, which mainly uses heptafluoropropane as the fire extinguishing agent. The characteristics of this fire extinguisher are:

Small diameter: refers to the smaller fire extinguishing agent injection port, which can achieve more precise delivery of fire extinguishing agent and is suitable for rapid fire extinguishing in limited spaces or local fire sources.

One-time burst: Designed to completely release the FM200 fire extinguishing agent stored inside with one trigger, and discard it immediately after use without refilling.

Prefabricated type: FM200 fire extinguishing agent has been pre-filled and sealed at the factory. Users can use it directly after purchase without making other complicated preparations.

FM200 fire extinguishing agent: FM200 is a clean and efficient halon substitute. It is colorless, odorless, low-toxic and non-conductive. It has zero destructive potential for the atmospheric ozone layer and no secondary damage to most electrical equipment and precision instruments. Especially Suitable for protecting important places from electrical fires and other types of incipient fires.

This type of fire extinguisher is commonly used in computer rooms, communication base stations, power distribution rooms, archives rooms, libraries, museums and other places that require high fire extinguishing efficiency and environmental protection. When a fire occurs, it can quickly and effectively extinguish Class A, B, and C fires (solid material fires, liquid fires, gas fires, and electrical equipment fires), and will not leave any residue after the fire is extinguished, which facilitates subsequent cleaning and recovery work.

### Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

### Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

### Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are the manufacturer.

Q2: Do you have OEM orders?

A2: Yes, according to the customer's requirements.

Q3: Where is your factory located? How do I get there?

A3: Our factory is located in Dongzhou Industrial Park, Xintang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

You are very welcome to visit our factory.
