

Hfc-227ea 1kg 2kg 6kg Automatic Fire Extinguisher For Industrial Areas FM200 Fire Fighting System

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Guangzhou Xinlin Firefighting Equipment Co., Ltd.
- Certification: ISO9001, CE, QMS, CCCF, CNAS
- Model Number: QMP-Y3/2.5-S
- Minimum Order Quantity: 200 set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Application: Indoor
- Capacity: 3KG/4KG/6KG/8KG
- Feature: Clean Gas And Environmental Friendly
- Body Material: Steel Cylinder
- Color: Red
- Object: Class A, B, C, E Fires
- High Light: 6KG (small Diameter) Multiple Eruptions
- Highlight: **2kg automatic fire extinguisher,**
6kg automatic fire extinguisher,
1kg automatic fire extinguisher

Product Description

Product Description

6KG Hfc-227ea Gas Fire Extinguisher for Industrial Areas FM200 Fire Fighting System

The prefabricated FM200 fire extinguisher is a special fire extinguishing equipment that uses FM200 (hfc-227ea) as the fire extinguishing agent. Heptafluoropropane is a colorless, odorless, non-conductive gas that does not pollute the object to be protected. Its fire extinguishing principle is to interrupt the chain reaction of combustion by inhibiting free radicals in the flame. This type of fire extinguisher is usually used to protect specific equipment or areas, such as electronic equipment, computer servers, precision instruments, etc.

Prefabricated FM200 fire extinguisher has the following advantages:

Clean and environmentally friendly: FM200 fire extinguishing agent will not leave any residue and will not contaminate or damage the objects being protected.

Efficient and fast: FM200 can quickly reduce the flame temperature and interrupt the combustion chain reaction, thereby achieving rapid fire extinguishing.

Suitable for electronic equipment: Due to its non-conductive properties, the FM200 fire extinguisher is particularly suitable for protecting electronic equipment and other sensitive equipment.

Safe and reliable: Prefabricated FM200 fire extinguishers are usually equipped with automatic starting devices and manual starting devices to ensure that the fire extinguishing procedure is started in time when a fire occurs.

Note: Storage and transportation requirements: FM200 is a high-pressure gas, so the storage and transportation of fire extinguishers need to follow strict safety regulations.

Regular maintenance: To ensure the effectiveness of your fire extinguisher, regular inspections and maintenance are required.

In short, the prefabricated FM200 fire extinguisher is an efficient and environmentally friendly fire extinguishing equipment, especially suitable for protecting electronic equipment and other sensitive equipment.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1 Are you a manufacturer or a trading company?

A1: We are the manufacturer.

Q2: Do you have OEM orders?

A2: Yes, according to the customer's requirements.

Q3: Where is your factory located? How do I get there?

A3: Our factory is located in Dongzhou Industrial Park, Xintang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

You are very welcome to visit our factory.
