Product Description

Product description

Factory Price 120L FM200 Fire Extinguisher Agent for Valuable Instrument Room

FM200 (hfc-227ea) fire extinguishing system is widely used in China and around the world. Its biggest advantage is that the system meets the requirements of world environmental protection. Even if there is a 1% chance, it will not harm the ozone layer. It is clean, odorless, colorless and easy to install, making it the best substitute for Halon 1301 in people's minds.

The FM200 (hfc-227ea) fire extinguishing system works more efficiently when equipped with electrical components. Additionally, the system requires a little storage outside but close to the reserve. It helps save space. The system also features injection times of less than 10 seconds.
