

## Replacement Fm 200 Fire System Flooding Extinguisher Without Pollution For Library

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Guangzhou Xinlin Firefighting Equipment Co., Ltd.
- Certification: ISO9001,CE,QMS,CCCF,CNAS
- Model Number: QMP90/4.2W-XL-68
- Minimum Order Quantity: 100set
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, T/T
- Supply Ability: 100000 sets per week

### Product Specification

- Feature: Clean Gas And Environmental Friendly
- Body Material: Steel Cylinder
- Fire Extinguishing Methods: Total Flooding
- Fire Rating: Class A, B, C,E Fires
- High Light: QMP90/4.2W-XL-68
- Starting Mode: Automatic, Electrical Manual, Mechanical Emergency
- Highlight: **fm 200 fire system, fm 200 flooding system, fm 200 replacement**

**Product description****Factory Price Fire Suppression System Extinguisher FM200 Without Pollution for Library**

The FM200 external storage pressure fire extinguishing system is an efficient and environmentally friendly gas fire extinguishing system that is widely used in a variety of places. It is suitable for the following places:

Computer rooms and electronic equipment places: Since there are a large number of high-risk fire sources in computer rooms and electronic equipment places such as servers, communication equipment, and data centers, the external pressure storage FM200 system is particularly suitable for these places. It will not cause damage to electronic equipment and computer systems, and can quickly extinguish fires to prevent fire spread and data loss.

Electrical facilities and substations: Electrical facilities and substations are critical infrastructure, and fires in them can cause severe power outages and safety incidents. The FM200 external storage pressure fire extinguishing system can quickly cut off the fire source and ensure the safety of power facilities.

Museums and libraries: These places usually preserve a large number of precious cultural relics, artworks and books and archives, which are irreplaceable cultural wealth. The FM200 external storage pressure fire extinguishing system can quickly and effectively extinguish fires without causing secondary damage to these precious items.

Chemical laboratories and warehouses: These are places where a variety of chemicals and flammable items are stored, and the risk of fire is higher. The external pressure storage FM200 system is suitable for these places because it can quickly extinguish fires and will not cause corrosion and contamination of electronic equipment or facilities.

Computer rooms and server rooms: As the core of information technology systems, computer rooms and server rooms store a large amount of important data and equipment. The FM200 external storage pressure fire extinguishing system can respond quickly and effectively extinguish fires, protecting these critical facilities from fire threats.

In addition, the FM200 external storage pressure fire extinguishing system is also suitable for the petroleum and chemical industries, textile industry, steel and metallurgical industry, and organic chemical production sites, such as plastic product factories, rubber factories, paint and coating factories, and pharmaceutical factories. These industries have a high risk of fire and require effective fire suppression systems to protect people and property.

Please note that although the FM200 external storage pressure fire extinguishing system has a wide range of applications, specific applications must be selected and configured based on the actual situation of the site and fire safety requirements. At the same time, the installation, debugging and maintenance of the system must also be carried out by professionals to ensure its normal operation and effectiveness.

**Technical parameter**

Model	QMP90/4.2W-XL-68
Executive standards	Q/GZXL001-2021
Storage pressure	4.2Mpa(+20°C)
Working temperature range	0~50°C
Filling density	≤1250kg/M <sup>3</sup>
Storage pressure	0.3Mpa(+20°C)
Maximum working pressure	5.3Mpa(+50°C)
System spray time	Computer room≤8S,Others≤10S
Fire extinguishing methods	Total flooding
Fire extinguishing design concentration	8-10%
Starting Method	Automatic, pneumatic, manual mechanical emergency start
Fire extinguishing method	Fully submerged fire extinguishing

### Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic FM200 extinguishers (ceiling-mounted), IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

### Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
