

## Extinguishing FM200 Clean Agent Fire Suppression System For Valuable Instrument Room

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: Guangzhou Xinlin Firefighting Equipment Co., Ltd.
- Certification: ISO9001, CE, QMS, CCCF, CNAS
- Model Number: QMP120/4.2W-XL-83
- Minimum Order Quantity: 300set
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000 sets per week

#### Product Specification

- Feature: Clean Gas And Environmental Friendly
- Body Material: Steel Cylinder
- Fire Extinguishing Methods: Total Flooding
- Fire Rating: Class A, B, C, E Fires
- High Light: QMP120/4.2W-XL-83 Fire Suppression System
- Starting Mode: Automatic, Electrical Manual, Mechanical Emergency
- Highlight: **FM200 Clean Agent Fire Suppression System**  
**Xinlin**  
**, fm 200 extinguishing agent Xinlin,**  
**fm 200 extinguishing system Xinlin**

## Product Description

### Product description

High Quality FM200 clean agent fire suppression system supplier For Valuable Instrument Room

FM200 internal pressure storage fire extinguishing device occupies an important position in the modern fire protection field with its unique fire extinguishing mechanism and high efficiency. This device utilizes the fire extinguishing characteristics of FM200 and combines it with an internal pressure storage design to provide a safe and reliable fire extinguishing solution for various places.

The fire extinguishing effect of FM200 is due to its ability to quickly inhibit free radicals in the flame, thereby achieving the purpose of quickly extinguishing the fire. At the same time, because its chemical properties are stable, harmless to the human body, and will not cause pollution to the environment after use, it is widely used in various important places.

The internal pressure storage design allows FM200 to be stored under high pressure, ensuring that the fire extinguishing agent can be quickly released when a fire occurs. This design not only improves fire extinguishing efficiency, but also makes the device itself more stable and reliable. In practical applications, the FM200 internal pressure storage fire extinguishing device has demonstrated its excellent performance in many fields. Whether it is power facilities, communication base stations, or cultural venues such as museums and libraries, it can provide effective fire protection to ensure the safety of people's lives and property.

### Technical parameter

Model	QMP120/4.2W-XL-83
Executive standards	Q/GZXL001-2021
Storage pressure	4.2Mpa(+20°C)
Working temperature range	0~50°C
Filling density	≤1250kg/M <sup>3</sup>
Storage pressure	0.3Mpa(+20°C)
Maximum working pressure	5.3Mpa(+50°C)
System spray time	Computer room≤8S,Others≤10S
Fire extinguishing methods	Total flooding
Fire extinguishing design concentration	8-10%
Starting Method	Automatic, pneumatic, manual mechanical emergency start
Fire extinguishing method	Fully submerged fire extinguishing

### Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic FM200 extinguishers (ceiling-mounted), IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

### Frequently Asked Questions

---

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
