

Pipe Line FM200 Fire Extinguishing System Gas Fire Extinguisher with

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Guangzhou Xinlin Firefighting Equipment Co., Ltd.
- Certification: ISO9001,CE,QMS,CCCF,CNAS
- Model Number: QMP120/4.2W-XL-84
- Minimum Order Quantity: 100set
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000 sets per week

Product Specification

- Feature: Clean Gas And Environmental Friendly
- Body Material: Steel Cylinder
- Fire Extinguishing Methods: Total Flooding
- Fire Rating: Class A, B, C,E Fires
- High Light: QMP120/4.2W-XL-84 Fire Suppression System
- Starting Mode: Automatic, Electrical Manual, Mechanical Emergency
- Highlight: **FM200 Fire Extinguishing System ,
Pipe Line FM200 Fire Extinguishing System**

Product description**Pipe Line FM200 Fire Extinguishing System Gas Fire Extinguisher with**

FM200 internal pressure storage fire extinguishing device: the invisible guard that protects safety

In modern society, fire prevention and response are particularly important. As an advanced fire-fighting equipment, the FM200 internal pressure storage fire extinguishing device has become a shining pearl in the field of fire safety due to its high efficiency, environmental protection and safety.

As a clean and efficient fire extinguishing agent, FM200 does not produce toxic and harmful substances during the fire extinguishing process and is harmless to the human body and the environment. At the same time, its fire extinguishing effect is excellent, it can quickly extinguish the fire in a short period of time and effectively prevent the spread and expansion of the fire. The internal pressure storage design makes the FM200 fire extinguishing device more convenient and safer during storage and transportation. Through high-pressure storage, it is ensured that the fire extinguishing agent can be quickly released when needed to maximize the fire extinguishing effect.

The fire extinguishing device also has the characteristics of intelligence and automation. It can be seamlessly connected with the fire alarm system to realize automatic fire detection, alarm and fire extinguishing. Once a fire occurs, the device can be activated quickly and automatically release fire extinguishing agent to control the fire to the smallest extent, thereby protecting people's lives and property to the greatest extent.

In addition, FM200 internal pressure storage fire extinguishing device is also widely used in various places, such as computer rooms, data centers, archives, etc. These places usually store important equipment or information. Once a fire breaks out, the consequences will be disastrous. Therefore, the installation of FM200 internal pressure storage fire extinguishing device can effectively improve the fire safety level of these places.

Technical parameter

Model	QMP120/4.2W-XL-84
Executive standards	Q/GZXL001-2021
Storage pressure	4.2Mpa(+20°C)
Working temperature range	0~50°C
Filling density	$\leq 1250\text{kg/M}^3$
Storage pressure	0.3Mpa(+20°C)
Maximum working pressure	5.3Mpa(+50°C)
System spray time	Computer room $\leq 8\text{S}$, Others $\leq 10\text{S}$
Fire extinguishing methods	Total flooding
Fire extinguishing design concentration	8-10%
Starting Method	Automatic, pneumatic, manual mechanical emergency start
Fire extinguishing method	Fully submerged fire extinguishing

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic FM200 extinguishers (ceiling-mounted), IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
