

## Automatic FM200 Fire Suppression System With Fire Extinguishers For Libraries

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: Guangzhou Xinlin Firefighting Equipment Co., Ltd.
- Certification: ISO9001, CE, QMS, CCCF, CNAS
- Model Number: QMP120/4.2W-XL-85
- Minimum Order Quantity: 200set
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000 sets per week

#### Product Specification

- Feature: Clean Gas And Environmental Friendly
- Body Material: Steel Cylinder
- Fire Extinguishing Methods: Total Flooding
- Fire Rating: Class A, B, C, E Fires
- High Light: QMP120/4.2W-XL-84 Fire Suppression System
- Starting Mode: Automatic, Electrical Manual, Mechanical Emergency
- Highlight: **Automatic FM200 Fire Suppression System, FM200 Fire Suppression System for Libraries, Fire Extinguishers FM200 Fire Suppression System**

**Product description****Automatic FM200 Fire Suppression System with Fire Extinguishers for Libraries**

FM200 internal pressure storage fire extinguishing device: a new choice for efficient and environmentally friendly fire extinguishing

With the advancement of science and technology and the development of society, fire prevention and control technology is also constantly upgrading. The FM200 internal pressure storage fire extinguishing device has become a shining star in the modern fire protection field due to its high efficiency and environmental protection.

FM200, as a clean and efficient fire extinguishing agent, occupies an important position in the field of fire protection with its unique fire extinguishing mechanism. When a fire occurs, the FM200 internal pressure storage fire extinguishing device can be quickly activated to accurately spray the fire extinguishing agent in the high-pressure container through the pipeline to the fire source, quickly suppressing the spread of the flame.

This FM200 fire extinguishing device not only extinguishes fires quickly, but is also harmless to the human body and the environment. FM200 does not produce harmful substances during fire extinguishing, which is crucial to protecting the safety of on-site personnel and equipment. At the same time, it will not cause pollution to the surrounding environment and meets the environmental protection requirements of modern society.

In addition, the FM200 internal pressure storage fire extinguishing device also has the characteristics of intelligence and automation. It can be linked with the automatic fire alarm system to realize automatic detection, automatic start, automatic fire extinguishing and other functions, greatly improving fire extinguishing efficiency and safety.

In practical applications, FM200 internal pressure storage fire extinguishing device is widely used in computer rooms, communication base stations, libraries, museums and other important places. Once a fire breaks out in these places, it will often cause huge economic losses and social impact. Therefore, the installation of this efficient and environmentally friendly fire extinguishing device is crucial to ensure the safety of these places.

**Technical parameter**

Model	QMP120/4.2W-XL-85
Executive standards	Q/GZXL001-2021
Storage pressure	4.2Mpa(+20°C)
Working temperature range	0~50°C
Filling density	≤1250kg/M <sup>3</sup>
Storage pressure	0.3Mpa(+20°C)
Maximum working pressure	5.3Mpa(+50°C)
System spray time	Computer room≤8S,Others≤10S
Fire extinguishing methods	Total flooding
Fire extinguishing design concentration	8-10%
Starting Method	Automatic, pneumatic, manual mechanical emergency start
Fire extinguishing method	Fully submerged fire extinguishing

### Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic FM200 extinguishers (ceiling-mounted), IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

### Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
