

Automatic FM200 Fire Suppression System With Fire Extinguishers For Libraries

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Guangzhou Xinlin Firefighting Equipment Co., Ltd.
- Certification: ISO9001, CE, QMS, CCCF, CNAS
- Model Number: QMP120/4.2W-XL-86
- Minimum Order Quantity: 200set
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000 sets per week

Product Specification

- Feature: Clean Gas And Environmental Friendly
- Body Material: Steel Cylinder
- Fire Extinguishing Methods: Total Flooding
- Fire Rating: Class A, B, C, E Fires
- High Light: QMP120/4.2W-XL-86 Fire Suppression System
- Starting Mode: Automatic, Electrical Manual, Mechanical Emergency
- Highlight: **Automatic FM200 Fire Suppression System ,
FM200 Fire Suppression System for Libraries ,
Libraries FM200 Fire Suppression System**

Product Description

Product description

Automatic FM200 Fire Suppression System with Fire Extinguishers for Libraries

FM200 internal pressure storage fire extinguishing device: the silent guard to protect safety

Fire, this ruthless disaster, often threatens the safety of our lives and property. However, with the silent guardian of the FM200 internal pressure storage fire extinguishing device, we can feel more at ease.

FM200, as an efficient fire extinguishing agent, plays an important role in the field of fire extinguishing with its unique chemical properties. The internal pressure storage design enables this fire extinguishing device to respond quickly at critical moments, spraying the fire extinguishing agent accurately and efficiently to the fire source, thereby quickly controlling the fire.

This fire extinguishing device not only has efficient fire extinguishing capabilities, but is also extremely safe. FM200 will not cause harm to the human body during the fire extinguishing process, and it will not pollute the environment. In addition, the internal pressure storage design also ensures that the device can maintain stable performance for a long time, providing a strong guarantee for long-term safety protection.

In practical applications, FM200 internal pressure storage fire extinguishing device is widely used in various important places, such as power facilities, data centers, museums, etc. Once a fire breaks out in these places, the consequences will be disastrous. With the protection of this fire extinguishing device, we can quickly extinguish the fire in its early stages, thereby minimizing losses.

In short, the FM200 internal pressure storage fire extinguishing device has become an important force in the modern fire protection field with its high efficiency, safety and environmental protection characteristics. In the days to come, it will continue to protect the safety of our lives and property and create a safer and better living environment for us.

Technical parameter

Model	QMP120/4.2W-XL-86
Executive standards	Q/GZXL001-2021
Storage pressure	4.2Mpa(+20°C)
Working temperature range	0~50°C
Filling density	≤1250kg/M ³
Storage pressure	0.3Mpa(+20°C)
Maximum working pressure	5.3Mpa(+50°C)
System spray time	Computer room≤8S,Others≤10S
Fire extinguishing methods	Total flooding
Fire extinguishing design concentration	8-10%
Starting Method	Automatic, pneumatic, manual mechanical emergency start
Fire extinguishing method	Fully submerged fire extinguishing

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic FM200 extinguishers (ceiling-mounted), IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
