

# Hfc-227ea Clean Agent Fire Suppression System Supplier For Valuable Instrument Room

Guangzhou Xinlin Firefighting Equipment

Plywood outer box with bubble bag or paper 10-15 working days after payment or receipt

L/C, D/A, D/P, T/T, Western Union,

ISO9001,CE,QMS,CCCF,CNAS

QMP120/4.2W-XL-87

## **Basic Information**

- Place of Origin:
- Brand Name:
- Certification:
- Model Number:
- Minimum Order Quantity: 200set
- Price: negotiation
- Packaging Details:
- Delivery Time:
- Payment Terms:
- Supply Ability:

### **Product Specification**

• Feature:	Clean Gas And Environmental Friendly
<ul> <li>Body Material:</li> </ul>	Steel Cylinder
<ul> <li>Fire Extinguishing Methods: Total Flooding</li> </ul>	
Fire Rating:	Class A, B, C,E Fires
• High Light:	QMP120/4.2W-XL-87 Fire Suppression System
Starting Mode:	Automatic, Electrical Manual, Mechanical Emergency
• Highlight:	Hfc-227ea Clean Agent Fire Suppression System
	, Valuable Instrument Room Fire Suppression System

**Our Product Introduction** 

#### **Product description**

Automatic FM200 Fire Suppression System with Fire Extinguishers for Libraries

FM200 internal pressure storage fire extinguishing device: a powerful tool to protect important spaces As an advanced fire extinguishing technology, the importance of FM200 internal pressure storage fire extinguishing device has become increasingly prominent in many key fields. Whether it is archives, data centers or telecommunications base stations, these important places require a reliable and efficient fire extinguishing solution, and the FM200 internal pressure storage fire extinguishing device is the ideal choice to meet this need.

The core of the device lies in its efficient fire extinguishing capabilities and environmentally friendly features. As a clean fire extinguishing agent, FM200 not only extinguishes fire quickly, but also does not leave any harmful residue. At the same time, the internal pressure storage design ensures that the fire extinguishing agent can be released quickly and stably when needed, thereby quickly controlling the fire.

In addition, the FM200 internal pressure storage fire extinguishing device also has the characteristics of intelligence and automation. By linking with the fire alarm system, the device can automatically start in the early stages of a fire, quickly extinguish the flames and prevent the spread of the fire. This intelligent design greatly improves fire extinguishing efficiency and reduces losses caused by fire.

In practical applications, the FM200 internal pressure storage fire extinguishing device has been widely used and recognized. It can not only protect the security of equipment and data in important places, but also provide valuable time for personnel evacuation. Therefore, whether from the perspective of safety or environmental protection, heptafluoropropane internal pressure storage fire extinguishing device is an indispensable part of modern fire protection work.

#### **Technical parameter**

Model	QMP120/4.2W-XL-87
Executive standards	Q/GZXL001-2021
Storage pressure	4.2Mpa(+20°C)
Working temperature range	0~50°C
Filling density	≤1250kg/M <sup>3</sup>
Storage pressure	0.3Mpa(+20°C)
Maximum working pressure	5.3Mpa(+50°C)
System spray time	Computer room≤8S,Others≤10S
Fire extinguishing methods	Total flooding
Fire extinguishing design concentration	8-10%
Starting Method	Automatic, pneumatic, manual mechanical emergency start
Fire extinguishing method	Fully submerged fire extinguishing

#### **Company profile**

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinetstyle FM200 fire suppression systems, fully automatic FM200 extinguishers (ceiling-mounted), IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

#### **Frequently Asked Questions**

-----

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
