

Inert Gas FM200 Fire Suppression System Hfc-227ea Fire Suppression System

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Guangzhou Xinlin Firefighting Equipment Co., Ltd.
- Certification: ISO9001, CE, QMS, CCCF, CNAS
- Model Number: XL-55
- Minimum Order Quantity: 100set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Portable Extinguisher: FM200 Gas Fire Extinguisher
- Power Source: Gas Fire Extinguisher
- Max Working Pressure: 2.5MPa
- Storage Pressure: 1.6MPa
- Fire Extinguishing Method: Fully Flood Extinguishing
- Starting Mode: Constant Temperature
- Capacity: 4kg, 6kg, 8kg, 10kg, 20kg, 30kg
- Feature: Clean Gas And Environmental Friendly
- Body Material: Steel Cylinder
- Object: Class A, B, C, E Fires
- High Light: 10L Hfc-227ea Fire Suppression System
- Highlight: **fm200 inert gas,
hfc-227ea Fire Suppression System ,
hfc-227ea Fire Suppression**

Product Description

Product description

FM200 Price Fire Suppression System hfc-227ea Fire Suppression System Automatic Fire Extinguisher

In the pursuit of efficient and convenient fire protection solutions, the suspended FM200 fire extinguisher stands out with its unique advantages. It uses advanced FM200 fire extinguishing agent, which is colorless, odorless, low-toxic, and harmless to the human body and the environment. At the same time, the suspended design allows the fire extinguisher to be easily installed in various places without occupying floor space, making it convenient and fast.

The hanging FM200 fire extinguisher is suitable for a variety of usage scenarios. In key places such as power facilities, communication equipment, and computer rooms, once a fire occurs, it may be difficult for traditional fire-extinguishing equipment to quickly reach the source of the fire. The hanging FM200 fire extinguisher can be started quickly, spraying out efficient fire extinguishing agent, quickly extinguishing the flame and preventing the spread of the fire. In addition, it is also widely used in cultural venues such as libraries and museums to protect precious cultural relics and materials from fire.

The hanging FM200 fire extinguisher (temperature sensing type) is very easy to use. Once a fire occurs and the temperature reaches 68 degrees, it will automatically sense and start without manual operation. At the same time, it also has an electromagnetic version, which can realize an intelligent control system and link with the fire alarm system to achieve timely detection and rapid response to fires. This intelligent design greatly improves fire extinguishing efficiency and reduces losses caused by fire.

In short, the suspended FM200 fire extinguisher has become an important tool in modern firefighting work due to its high efficiency, convenience and safety. It can not only quickly extinguish fires and protect the safety of people and property, but also provide strong support for fire extinguishing and rescue work.

Technical parameter

Constant temperature suspension type	XL-55
Executive standards	XF13-2006
Filling density	$\leq 1000\text{kg/M}^3$
Fire extinguishing method	Fully flood extinguishing
Storage pressure	1.6MPa(+20°C)
Working temperature range	0~50°C
Max working pressure	2.5MPa(+50°C)
System spray time	Computer room $\leq 8\text{S}$, Others $\leq 10\text{S}$
Fire extinguishing design concentration	8-10%

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products. Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines. With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
