Product Description

Product description

90L Automatic Fire Suppression System FM200 Fire Extinguisher System

The cabinet-type FM200 fire extinguishing device produced by Guangzhou Xinlin Firefighting Equipment Co., Ltd. brings a new solution to modern safety protection with its professional and efficient features. Using advanced FM200 fire extinguishing agent, this device can quickly suppress flames without leaving any residue, ensuring that the fire extinguishing process will not cause damage to equipment or materials.

The cabinet design is not only beautiful and elegant, but also realizes efficient use of space. The compact structure allows it to be easily installed in various places without taking up too much space. At the same time, the device is equipped with an intelligent control system that can monitor fire hazards in real time. Once a fire occurs, it will quickly start to release fire extinguishing agents to control the fire to a minimum.

Cabinet-type FM200 fire extinguishing devices are widely used in important places such as data centers, telecommunications equipment rooms, and archives. Once a fire breaks out in these places, the consequences will be disastrous. Therefore, it is crucial to choose a professional and efficient fire extinguishing device. The cabinet-type FM200 fire extinguishing device is your ideal choice. It will protect your safety and keep you away from the threat of fire.
