## Product Description

### Product description

100L hfc-227ea fm200 extinguisher clean agent automatic fire suppression system

The cabinet-type FM200 fire extinguishing device produced by Guangzhou Xinlin Firefighting Equipment Co., Ltd. has become the new favorite in the modern fire protection field with its stable, reliable, efficient and safe characteristics. This fire extinguishing device uses advanced FM200 fire extinguishing agent, which has the advantages of quickly suppressing flames and leaving no residue, ensuring that no damage will be caused to equipment or materials during the fire extinguishing process.

The cabinet-type design allows this fire extinguishing device to be easily integrated into various environments. It is not only beautiful and elegant, but also can be activated quickly when a fire occurs, buying valuable time for fire extinguishing. At the same time, it is also equipped with an intelligent control system that can monitor fire hazards in real time. Once a fire is detected, it will automatically start to achieve rapid fire extinguishing.

Cabinet-type FM200 fire extinguishing devices are widely used in important places such as power computer rooms, data centers, and archives rooms. These places usually store a large amount of electronic equipment or precious information. Once a fire breaks out, the consequences will be disastrous. Therefore, it is crucial to choose a stable and reliable fire extinguishing device. The cabinet-type FM200 fire extinguishing device is your ideal choice. It will protect your safety and keep you away from the threat of fire.
