Product Description

Product description

120L FM200 system gas automatic fire suppression systems

The cabinet-type FM200 fire extinguishing device produced by Guangzhou Xinlin Firefighting Equipment Co., Ltd. provides a strong guarantee for modern fire safety with its high efficiency, safety and stability. This fire extinguishing device uses advanced FM200 fire extinguishing agent, which can quickly extinguish various fires without causing pollution to the environment.

The cabinet-type design makes this fire extinguishing device both beautiful and practical, and can be easily integrated into various environments. It adopts an intelligent control system that can monitor fire hazards in real time. Once a fire is detected, it will automatically start and spray fire extinguishing agent quickly to effectively control the spread of fire.

Cabinet-type FM200 fire extinguishing devices are widely used in important places such as power computer rooms, data centers, and archives rooms. Once a fire breaks out in these places, the consequences will be disastrous. Therefore, it is crucial to choose an efficient and safe fire extinguishing device. The cabinet-type FM200 fire extinguishing device is your ideal choice. It will protect your safety and keep you away from the threat of fire.
