Product Description

Product description

Factory outlet Automatic HFC-227ea Fire Suppression System FM200 Fire Extinguisher System

Guangzhou Xinlin Firefighting Equipment Co., Ltd. produces cabinet-type FM200 fire extinguishing devices. With its excellent fire extinguishing performance and flexible application scenarios, it provides strong fire safety guarantee for many places.

In the core area of the data center, the cabinet-type FM200 fire extinguishing device plays a vital role. A large number of servers and storage devices are gathered in these areas. Once a fire breaks out, the consequences will be disastrous. The cabinet-type FM200 fire extinguishing device can respond quickly and extinguish fire accurately to ensure the stable operation of the data center.

In addition, in cultural places such as museums and libraries, cabinet-type FM200 fire extinguishing devices also show their unique value. These places contain a large number of cultural relics and books. Once a fire breaks out, the loss will be immeasurable. The cabinet-type FM200 fire extinguishing device can quickly extinguish fires and protect these precious cultural heritages without affecting cultural relics and books.

At the same time, cabinet-type FM200 fire extinguishing devices are also widely used in key facilities in the fields of electric power, communications, transportation and other fields. In these areas, the normal operation of equipment is critical, and a fire may lead to serious consequences. The cabinet-type FM200 fire extinguishing device can quickly extinguish fires and ensure the safe and stable operation of these key facilities.
