Product Description

Product description

Fm200 Automatic Hanging Fire Extinguishers With Alarm System

The hanging FM200 fire extinguisher (electromagnetic type) is an efficient, safe and convenient fire extinguishing equipment, specially designed to deal with various fire hazards. The advanced FM200 fire extinguishing agent is used, which has the characteristics of rapid fire extinguishing, leaving no residue and causing little damage to equipment. The electromagnetic design enhances the intelligence and safety of the product, ensuring your safety.

Features

Efficient fire extinguishing: FM200 fire extinguishing agent can quickly reduce the temperature of the fire scene in a very short time and effectively inhibit the spread of fire.

Intelligent control: electromagnetic starting device, which can be triggered remotely or automatically to achieve quick response.

Environmentally friendly and safe: Fire extinguishing agents are harmless to the human body, leave no residue, are non-corrosive to equipment, and are environmentally friendly.

Easy to install: Suspended design, easy to install, does not occupy floor space, suitable for use in various places.

scenes to be used

The hanging FM200 fire extinguisher (electromagnetic model) is suitable for important places such as computer rooms, data centers, libraries, museums, etc. It can also be used for fire protection of valuable items such as precision instruments, electronic equipment, and archives. In these places, once a fire breaks out, the consequences are often disastrous. Therefore, it is crucial to choose an efficient and intelligent fire extinguisher.

Kind tips

Please install and use it correctly according to the product instructions, and perform regular inspection and maintenance to ensure that the product is in optimal working condition. When a fire occurs, please stay calm and quickly activate the fire extinguisher to put out the fire.
