

Fm 200 Fire Extinguishing System Hanging Compact Lightweight Protection Gas Cylinder

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Guangzhou Xinlin Firefighting Equipment Co., Ltd.
- Certification: ISO9001, CE, QMS, CCCF, CNAS
- Model Number: XQQW8-1.6-XL-78
- Minimum Order Quantity: 100set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 20000 sets per week

Product Specification

- Portable Extinguisher: FM200 Gas Fire Extinguisher
- Power Source: Gas Fire Extinguisher
- Max Working Pressure: 2.5MPa
- Storage Pressure: 1.6MPa
- Fire Extinguishing Method: Fully Flood Extinguishing
- Starting Mode: Constant Temperature
- Capacity: 8kg, 20kg, 30kg
- Feature: Clean Gas And Environmental Friendly
- Body Material: Steel Cylinder
- Object: Class A, B, C, E Fires
- High Light: XQQW8-1.6-XL-78 Hanging Gas Extinguisher System
- Highlight: **fm 200 fire extinguishing system, fm 200 fire protection, fm 200 gas cylinder**

Product Description

Product description

Compact and lightweight FM200 hanging fire extinguisher is easy to install

The suspended FM200 heptafluoropropane constant temperature fire extinguisher produced by Guangzhou Xinlin Firefighting Equipment Co., Ltd. is an important part of the modern fire safety system. This device uses the internationally recognized efficient and environmentally friendly heptafluoropropane (FM-200) as the fire extinguishing medium. With its excellent low-temperature start-up characteristics, when the temperature at the fire scene reaches the preset threshold, the release system can be activated immediately to achieve precise fire extinguishing. The device has a compact structure and clever design, and can be hung directly above sensitive areas, saving space without affecting the normal working environment.

core advantages

Efficient fire extinguishing: Heptafluoropropane can effectively inhibit the combustion chain reaction in a short period of time and quickly extinguish Class A, B, and C fires.

Safe and reliable: The constant temperature trigger mechanism avoids false alarms and hysteresis, ensuring rapid response in the early stages of a fire.

Environmentally friendly and low-carbon: non-corrosive, no residue, no damage to the environment and protected equipment, in line with today's green fire protection concept.

Applications

In the data center, the hanging FM200 heptafluoropropane fire extinguisher provides strong protection for expensive and non-replicable data equipment, preventing fire from threatening critical business operations.

Technical parameter

Constant temperature suspension type	XQQW8-1.6-XL-78
Executive standards	XF13-2006
Filling density	$\leq 1000\text{kg}/\text{M}^3$
Fire extinguishing method	Fully flood extinguishing
Storage pressure	1.6MPa(+20°C)
Working temperature range	0~50°C
Max working pressure	2.5MPa(+50°C)
System spray time	Computer room $\leq 8\text{S}$, Others $\leq 10\text{S}$
Fire extinguishing design concentration	8-10%

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products. Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines. With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
