Product Description

Product description

FM200 Hanging Fire Extinguisher for Intelligent Fire Extinguishing in Shopping Malls

The hanging FM200 heptafluoropropane constant temperature fire extinguisher produced by Guangzhou Xinlin Firefighting Equipment Co., Ltd. uses FM200 clean gas fire extinguishing agent, which is efficient, accurate and environmentally friendly. This fire extinguisher is equipped with an advanced constant temperature sensing system. When the temperature in the protective area rises abnormally to a preset value, it will automatically trigger the release device and instantly release heptafluoropropane fire extinguishing agent to quickly and effectively extinguish Class A, B, and C fires. Especially suitable for protecting temperature-sensitive and valuable precision equipment and precious data.

main feature

Constant temperature trigger, intelligent response: With an external sensitive constant temperature component, the fire extinguishing procedure can be quickly started in the initial stage of a fire without the need for additional linkage with the fire alarm system.

Highly efficient fire extinguishing agent: hfc-227ea (FM-200) is a clean, residue-free, non-conductive, low-toxic gas fire extinguishing agent that has no loss of the atmospheric ozone layer and is friendly to the environment and human body.

Compact and portable, flexible installation: integrated design, small size, can be easily hung on the ceiling of various confined spaces, without the need for a special bottle storage room, greatly improving installation convenience and space utilization.

scenes to be used

Data center and server room: Effectively prevent fires caused by circuit short circuits or other reasons, and ensure the safe operation of key information systems.

Libraries, Archives and Museums: Provide non-contact, non-destructive fire protection for precious books, historical archives and artworks.

Laboratories and R&D institutions: Aim at chemical storage areas and precision instrument rooms to achieve early and rapid fire control.
