

100L Steel Welded / Seamless FM200 Gas Cylinder, High Cost Performance

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: ISO9001,CE,CCCF,CNAS,QMS
- Model Number: 40L 70L 90L 100L 120L 150L
- Minimum Order Quantity: 300 sets
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Color: Red
- Model: HJ70L-2.5/01-XL-28
- Cylinder Material: Steel Material
- Use: Fire Fighting Equipment
- High Light: Fm200 Cylinder Extinguisher
- Highlight: **high performance FM200 gas cylinder ,
seamless FM200 gas cylinder ,
100L FM200 gas cylinder**

Product Description

100L steel welded / seamless FM200 gas cylinder, high cost performance

Product description

Efficient fire extinguishing: FM200 cylinder uses heptafluoropropane, an efficient and environmentally friendly fire extinguishing agent, which can quickly reduce the temperature of the fire scene, inhibit the spread of flames, and effectively extinguish all types of fires. It has fast fire extinguishing speed and good effect, and can minimize the losses caused by fire.

Safe and reliable: FM200 steel welded/seamless gas cylinders are made of high-strength steel and undergo strict welding or seamless processes to ensure the sealing and pressure resistance of the cylinder. At the same time, the gas cylinder is also equipped with a professional safety valve and pressure reducing device to ensure safety and stability during use.

Durable and long-lasting: FM200 cylinders are made of high-quality materials, finely processed and strictly tested, and have a long service life. Under normal use, the gas cylinder can maintain stable performance for a long time and provide users with reliable fire protection.

scenes to be used

Data centers and computer rooms: Data centers and computer rooms are important infrastructure in modern society, storing large amounts of data and information. Once a fire occurs, it will have a serious impact on data security and business operations. FM200 fire extinguishing device has become the first choice fire fighting equipment in these places due to its high efficiency and safety. It can quickly extinguish fires and protect the safety of data and equipment.

Museums and exhibition halls: Museums and exhibition halls display precious cultural relics and artworks. Once a fire breaks out, irreparable losses will be caused. The FM200 fire extinguishing system can quickly extinguish fires, protect the safety of cultural relics and artworks, and provide reliable fire protection for these places.

Power facilities and substations: Power facilities and substations are important infrastructure for urban operations. Once a fire occurs, it will seriously affect the city's power supply security. The high-efficiency fire extinguishing performance of the FM200 fire extinguisher can quickly extinguish the flames in the early stages of a fire, prevent the fire from expanding, and ensure the safe operation of power facilities.

Precision instrument manufacturing and laboratories: Precision instrument manufacturing and laboratories have high environmental requirements. Once a fire occurs, it will cause huge losses to equipment and research results. The clean and non-residue characteristics of FM200 make it an ideal fire-fighting equipment in these places, able to quickly extinguish fires and protect the safety of equipment and research results.

In addition, FM200 steel welded/seamless gas cylinders are also widely used in crowded places such as hospitals, schools, shopping malls, hotels, etc. to provide comprehensive fire safety guarantee for these places.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic FM200 extinguishers (ceiling-mounted), IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
