

Efficient Fire Suppression With The Easy-Install FM-200 Cylinder

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: ISO9001,CE,CCCF,CNAS,QMS
- Model Number: 40L 70L 90L 100L 120L 150L
- Minimum Order Quantity: 300 sets
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Color: Red
- Model: HJ70L-2.5/01-XL-30
- Cylinder Material: Steel Material
- Use: Fire Fighting Equipment
- High Light: HJ70L Fm200 Cylinder
- Highlight: **Easy Install FM-200 Cylinder,**
Efficient FM-200 Cylinder,
Easy Install Fire Suppression Cylinder

Product Description

Efficient Fire Suppression with the Easy-Install FM-200 Cylinder

Product description

The cylinder is a high-pressure container specially used to store and release heptafluoropropane (HFC-227ea) fire extinguishing agent. Heptafluoropropane is an efficient, clean and environmentally friendly gas fire extinguishing agent that is widely used in fire protection systems in various important places around the world.

Features:

1. ****Efficient fire extinguishing performance****: FM200/Fk-5-1-12 fire extinguishing agent can quickly extinguish Class A, B, and C fires (fires caused by solids, liquids, gases, and meltable solids, including some electrical fires), especially suitable for protecting electronic equipment, precision instruments, precious materials and other water-sensitive places.
2. ****Environmental protection properties****: This fire extinguishing agent has a very low global warming potential (GWP), has no destructive effect on the atmospheric ozone layer, decomposes quickly in the atmosphere, and has basically no toxic side effects on the human body.
3. ****High-quality cylinder manufacturing****: FM200/Fk-5-1-12 cylinders are usually made of high-quality steel materials and undergo precise welding or seamless forming processes to ensure that the cylinders have sufficient compressive strength and long-term durability. service life.
4. ****Working Pressure****: FM200/Fk-5-1-12 cylinders are generally designed to store fire extinguishing agents at higher working pressures, such as 4.2-5.6 bar, to ensure rapid and adequate release in the event of a fire. agent.

Application scenarios:

- Data center and communication room
- Libraries and Archives
- Museums and art collections
- Laboratory and research facilities
- Financial institutions, treasury and data centers
- Medical facilities and operating rooms
- High-end manufacturing and precision electronics factories

In short, the FM200 gas fire extinguishing device, as an important part of the modern fire protection system, has become a necessary fire safety equipment in many important places due to its excellent fire extinguishing performance and environmental protection properties, as well as its wide applicability.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic FM200 extinguishers (ceiling-mounted), IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
