

Durable Cost-Efficient FM200 Cylinder For Fire Suppression Systems

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: ISO9001,CE,CCCF,CNAS,QMS
- Model Number: 40L 70L 90L 100L 120L 150L
- Minimum Order Quantity: 300 sets
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000 sets per week

Product Specification

- Color: Red
- Model: HJ150L-2.5/01-XL-32
- Cylinder Material: Steel Material
- Use: Fire Fighting Equipment
- High Light: HJ150L Fm200 Cylinder
- Highlight: **Cost Efficient FM200 Cylinder, Fire Suppression Systems FM200 Cylinder, Durable FM200 Cylinder**

Product Description

Durable & Cost-Efficient FM200 Cylinder for Fire Suppression Systems

Product description

FM200 (HFC-227ea) and Novec 1230 cylinders are core components in efficient and clean gas fire extinguishing systems. They are mainly used to store and release corresponding fire extinguishing agents to deal with various fires.

FM200 (HFC-227ea)

FM200 is an efficient clean gas fire extinguishing agent, suitable for extinguishing Class A, B, and C fires, especially in electronic equipment, precision instruments and other places. FM200 cylinders are usually made of high-strength steel and have an internal pressure as high as a certain value (such as 5.6MPa) to ensure that the fire extinguishing agent can be released quickly when a fire occurs. Heptafluoropropane has the advantages of being colorless, odorless, low-toxic, non-conductive, and non-destructive to the atmospheric ozone layer. Although its global warming potential (GWP) is slightly higher than some emerging fire extinguishing agents, it is still widely accepted in the market. and one of the clean gas fire extinguishing agents used.

Novec 1230

Novec 1230 (Fk-5-1-12) is another new fire extinguishing agent that is more environmentally friendly, non-toxic and non-conductive. Novec 1230 cylinders are also made of high-quality materials and are designed to maintain a high pressure to store this liquid fire extinguishing agent. Novec 1230 fire extinguishing agent has extremely low global warming potential, has minimal impact on the environment, and has excellent fire extinguishing performance. It is especially suitable for places that have strict requirements on environmental impact and protect precision equipment and precious data, such as data centers, Museums, libraries and laboratories, etc.

Whether it is FM200 or Novec 1230 fire extinguishing devices, they can quickly and accurately release fire extinguishing agents when a fire occurs to protect life and property while minimizing damage to the environment and equipment.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic FM200 extinguishers (ceiling-mounted), IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
