

Novec 1230 FK-5-1-12 Clean Agent System Fire Extinguishing Agent

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Guangzhou Xinlin Firefighting Equipment Co., Ltd.
- Certification: ISO9001,CE,QMS,CCCF,CNAS
- Model Number: Novec 1230
- Minimum Order Quantity: 12 set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 45000 sets per week

Product Specification

- Trademark: Xinlin
- Feature: Clean Gas And Environmental Friendly
- Agent: FK-5-1-12 Clean Agent
- Object: Class A, B, C, E Fires
- High Light: FK5112 Fire Suppression System
- Highlight: **novec 1230 fk 5 1 12,**
fk-5-1-12 clean agent system,
fk 5 1 12 novtec 1230

Product Description

FK-5-1-12 Clean Agent Factory Price Fire Extinguishing Agent Bulk Wholesale

Product introduction

Perfluorohexanone (Hexafluoropropylene Oxide Dimer Acid or HFO-1230fa, trade name Novec 1230) is a new, efficient and environmentally friendly fire extinguishing agent. Its chemical properties are stable, colorless, odorless, non-toxic, non-conductive and has no impact on the environment. Extremely small, with very high fire extinguishing efficiency.

The main fire extinguishing mechanism of Novec 1230 fire extinguishing agent is to achieve the purpose of extinguishing fire through rapid heat absorption and cooling, as well as chemical free radical capture effect. When in contact with flame, Novec 1230 can evaporate quickly, absorb a large amount of heat, and reduce the temperature of the fire source to below the ignition point; at the same time, its decomposition products can effectively capture and inhibit the combustion chain reaction, thereby terminating the fire.

Since Novec 1230 has an extremely low global warming potential (GWP) of only 1, which is much lower than most current fire extinguishing agents, and its ozone depletion potential (ODP) is zero, it complies with strict environmental standards, so it is widely used. For occasions with high environmental protection requirements. For example, it is often used for fire protection in important facilities such as data centers, communication rooms, libraries, archives, museums, and precision instrument rooms. It can not only effectively protect expensive and fragile electronic equipment, but also minimize the impact on human health. and the impact on the ecological environment.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are the manufacturer.

Q2: Do you have OEM orders?

A2: Yes, according to the customer's requirements.

Q3: Where is your factory located? How do I get there?

A3: Our factory is located in Dongzhou Industrial Park, Xintang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

You are very welcome to visit our factory.
