

## Fm200 Releasing Panel Fire Alarm System Fire Alarm Control Panel

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangzhou
- Brand Name: Guangzhou Xinlin Firefighting Equipment Co., Ltd.
- Certification: ISO9001,CE,QMS,CCCF,CNAS
- Model Number: JB-QBL-QM300 (XL-01)
- Minimum Order Quantity: 100 set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50000 sets per week

#### Product Specification

- Control Panel: Addressable Or Conventional
- Application: All Places With Fire Hazards
- Type: Alarm System
- Mounted: Wall Mounted
- High Light: Fire Alarm Systemfire Alarm Control Panel
- Highlight: fm200 releasing panel, fire alarm system Xinlin, fire alarm control panel Xinlin

## Product Description

### Fire alarm system factory price fire alarm control panel

#### Product features

**Fire alarm** The fire alarm system is an efficient and vital safety system that is used to quickly detect and sound an alarm in the early stages of a fire, thereby initiating fire extinguishing measures and protecting people's lives and property.

The core components of the system include fire detectors, alarm controllers and linkage devices. The fire detector is responsible for real-time monitoring of fire parameters such as smoke, temperature and flame in the environment. Once an abnormality is detected, the signal will be immediately transmitted to the alarm controller. After receiving the signal, the alarm controller will immediately start the sound and light alarm to notify personnel of the occurrence of fire, and at the same time transmit the signal to the linkage device. The linkage device is responsible for controlling the activation of fire extinguishing equipment, evacuation indication systems and other equipment to minimize the losses caused by fires.

In addition, modern fire alarm fire alarm systems also have the characteristics of intelligence and network. By integrating advanced sensing technology and communication technology, the system can realize remote monitoring, fault diagnosis, automatic alarm and other functions. This not only improves the reliability and stability of the system, but also makes it easier for managers to monitor and maintain the system.

In general, the fire alarm fire alarm system is a comprehensive safety system that integrates detection, alarm, fire extinguishing and evacuation functions. By detecting fires in time and taking effective measures, the system can minimize the losses caused by fires and protect people's lives and property.

#### Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

#### Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

#### Frequently Asked Questions

Q1Are you a manufacturer or a trading company?

A1: We are the manufacturer.

Q2: Do you have OEM orders?

A2: Yes, according to the customer's requirements.

Q3: Where is your factory located? How do I get there?

A3: Our factory is located in Dongzhou Industrial Park, Xintang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

You are very welcome to visit our factory.
