

Empty Fire Suppression Equipment Cylinder System 1000ml Aerosol Type Chemical Fire Extinguisher

Our Product Introduction

Basic Information

- Place of Origin: Guangzhou
- Brand Name: XinLin
- Certification: MSDS ISO CCC CE UL
- Model Number: 40/70/90/100/120/150/180
- Minimum Order Quantity: 10sets
- Price: 250
- Packaging Details: wooden package
- Delivery Time: 7-15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000/week

Product Specification

- Package Size: 315.00cm * 315.00cm * 360.00cm
- High Light: Automatic Hanging Heptafluoropropane
- Fire Rating: FM200 IG541 IG100
- Portable Extinguisher: FM200 Gas Fire Extinguisher
- Medicament: FM200/Novec1230 Cylinder
- Specification: 1.62.5/4.2Mpa
- Nozzle Type: Spray
- Discharge Time: 8-10 Seconds
- Color: Red
- Material: Steel
- Highlight: Chemical fire suppression equipment cylinder system

Product Description

Guangzhou Xinlin Fire Equipment Co., Ltd. is a manufacturing enterprise specializing in gas fire extinguishing systems and fire equipment. The company is located in Xintang Town, known as the hub of the eastern part of Guangzhou. Established in 2017, with a registered capital of 5 million yuan, it is a high-tech company that integrates research and development, design, production, engineering construction, and after-sales maintenance. The company is composed of a marketing and a senior technical team that with over 10 years of experience in the fire industry. Our company's main products include: cabinet FM200 fire extinguishing devices, pipeline network FM200 fire extinguishing systems, IG541 gas fire extinguishing systems, IG100 nitrogen fire extinguishing systems, perfluorohexane fire extinguishing devices, etc. And our company provides customized gas fire protection overall solutions and scheme design and pipeline network renovation.

Product Description:

With a specification of 30kg, the FM200 Hanging Fire Extinguisher is capable of providing effective fire suppression for a range of different fire classes. This includes Class A, B, C, and E fires, making it a versatile and reliable option for any environment.

The FM200 Clean Gas Medicament used in this fire extinguisher is a highly effective fire suppression agent that is designed to quickly and efficiently extinguish fires. This gas is non-conductive, non-corrosive, and leaves no residue, making it a safe and easy-to-use option for fire suppression.

The valve material used in the FM200 Hanging Fire Extinguisher is brass, which provides a durable and reliable option for controlling the flow of the fire suppression agent. This valve is easy to operate and provides a high degree of precision when it comes to controlling the flow of the FM200 Clean Gas Medicament.

In addition to its effective fire suppression capabilities, the FM200 Hanging Fire Extinguisher is also designed to be easy to install and use. Its hanging design allows it to be easily mounted in any location where it is needed, and its compact size makes it easy to store and transport.

When it comes time to refill the FM200 Hanging Fire Extinguisher, users can rely on the Fire Extinguisher Refill Machine to quickly and efficiently refill the unit with the necessary FM200 Clean Gas Medicament. This ensures that the fire extinguisher is always ready to use when it is needed.

Overall, the FM200 Hanging Fire Extinguisher is an effective and reliable option for fire suppression in any environment. Its clean gas fire suppression capabilities, durable valve material, and versatile fire class capabilities make it an ideal choice for a wide range of applications. Whether it is used as part of an FM200 Fire Extinguishing System or an FM 200 Fire Alarm System, this fire extinguisher is sure to provide reliable and effective fire suppression when it is needed most.

Technical Parameters:

| | |
|-----------------------|--------------------------------------|
| Nozzle Type | Spray |
| Portable Extinguisher | FM200 Gas Fire Extinguisher |
| Fire Rating | Class A, B, C, E Fires |
| Feature | Clean Gas |
| Warranty | 5 Years |
| Specification | 30kg |
| Medicament | FM200 Clean Gas |
| Cylinder Color | Red |
| High Light | Automatic Hanging Heptafluoropropane |
| Valve Material | Brass |

For refilling the FM200 Hanging Fire Extinguisher, you can use a Fire Extinguisher Refill Machine. If you have an empty Fire Extinguisher Cylinder, you can also use a Fire Extinguisher Refill Machine to refill it.

Choice of extinguishing device

Applications:

One of the most significant attributes of this fire extinguisher is its use of FM200 clean gas. This clean gas is non-toxic, non-corrosive, and leaves no residue after use, making it ideal for use in areas where sensitive equipment or materials are present. Its clean gas feature also makes it environmentally friendly and safe for use in occupied spaces.

The FM200 Hanging Fire Extinguisher is suitable for use in a variety of settings, including commercial buildings, data centers, server rooms, and more. It is also compatible with FM 200 fire alarm systems, making it an excellent addition to any fire safety plan.

The automatic hanging feature of this fire extinguisher makes it easy to install and use. It can be hung from the ceiling or mounted on a wall, ensuring that it is easily accessible in case of an emergency. This feature also makes it an ideal choice for areas where floor space is limited.

In addition to its use in emergency situations, the FM200 Hanging Fire Extinguisher is also compatible with fire extinguisher refill machines, making it easy to maintain and recharge. This feature ensures that the fire extinguisher is always in good working condition and ready for use in case of an emergency.

In conclusion, XinLin's FM200 Hanging Fire Extinguisher is an excellent choice for those looking for a reliable, durable, and environmentally friendly fire extinguisher. Its use of FM200 clean gas, compatibility with FM 200 fire alarm systems, and automatic hanging feature make it an ideal choice for various applications and scenarios.

Customization:

Whether you need a FM 200 fire alarm system for your office building or a package size of 315.00cm * 315.00cm * 360.00cm for your industrial facility, XinLin offers product customization services to meet your needs. Contact us today to learn more about customizing your automatic fire extinguisher system to fit your unique fire safety requirements.

Support and Services:

Our FM200 Hanging Fire Extinguisher is designed to provide fast and effective fire suppression in critical areas. It is equipped with advanced detection and control systems that can quickly detect and suppress fires before they can cause significant damage. Our product technical support and services include:

24/7 technical support hotline

On-site inspection and maintenance services

Training and education programs for users and technicians

Customized system design and engineering services

Our team of experts is committed to ensuring that your FM200 Hanging Fire Extinguisher is always operating at peak performance. Contact us today to learn more about our technical support and services.

Packing and Shipping:

Product Packaging:

1 FM200 Hanging Fire Extinguisher

Mounting hardware

User manual

Shipping:

Shipping method: Ground

Estimated delivery time: 3-5 business days

Shipping cost: Calculated at checkout. One is price. According to our suggestion, if your protection zone(not separated) is less than 3 zones, our suggestion is cabinet type.

Another one is installation. It is obvious that installation of pipe network type will be more difficult than other types.

About cabinet type and hanging type, they are basically same. There are also two factors which you should take into consideration.

One is that requirement of extinguishing gas. Since the biggest hanging tank is just 30liter. It means it can be filled with around 30kg at most. So if your requirement is more than 30kg, you should consider about cabinet.

Another factor is that inner space. If your inner space is not enough to place cabinet extinguishing device, you can consider hanging type. Because it can be hanged on the wall or top of room.

1. who are we?

We are based in Guangzhou, China, start from 2017, sell to South America(20.00%), Africa(15.00%), Mid East(15.00%), North America(10.00%), Southeast Asia(10.00%), Western Europe(10.00%), Central America(10.00%), Southern Europe(10.00%). There are total about 11-50 people in our office.

2. how can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment;

3. what can you buy from us?

Fm200(htc-227ea)/Novec1230/IG541/IG100 gas Fire Extinguishing System, automatic alarm system.

4. why should you buy from us not from other suppliers?

One Stop Fire Fighting Equipment supply and professional service. We have MSDS ISO certificates. Mainly export to Europe, Middle east, South America, Africa, etc.

5. what services can we provide?

Accepted Delivery Terms: FOB, CFR, CIF, EXW, Express Delivery;

Accepted Payment Currency: USD, CNY;

Accepted Payment Type: T/T, L/C, D/P, D/A, Western Union, Cash;

Language Spoken: English, Chinese, Spanish
