

Automatic FM200 Hanging Fire Extinguisher Clean Gas Brass Valve For Quick Discharge.

Our Product Introduction

Basic Information

- Place of Origin: Guangzhou
- Brand Name: XinLin
- Certification: CCC CE UL
- Model Number: XinLin
- Minimum Order Quantity: 10sets
- Price: 200
- Packaging Details: wooden case packing
- Delivery Time: 7-15
- Payment Terms: T/C
- Supply Ability: 10000/week

Product Specification

- Type: Automatic
- Specification: 4/6/8/10/20/30kg
- Feature: Clean Gas
- Package Size: 315.00cm * 315.00cm * 360.00cm
- Portable Extinguisher: FM200 Gas Fire Extinguisher
- Object: FM200/ Novec1230/ IG541/ IG100
- Valve Material: Brass
- Discharge Time: 8-10 Seconds
- Highlight: Clean Gas FM200 Hanging Fire Extinguisher, Automatic FM200 Hanging Fire Extinguisher, Brass Valve FM200 Hanging Fire Extinguisher

Product Description

Product Description:

The FM200 Clean Gas used in this fire extinguisher is a highly effective fire suppressant that works quickly to extinguish fires without leaving behind any residue or damage to the environment. This makes it an ideal choice for use in sensitive areas where damage to equipment or property must be minimized.

The FM200 Hanging Fire Extinguisher is suitable for use with multiple object types, including FM200, Novec1230, IG541, and IG100. This makes it a versatile and adaptable solution for a wide range of fire suppression needs.

This fire extinguisher is available in a range of specifications, including 4, 6, 8, 10, and 2030kg, so you can choose the size that best suits your needs. The cylinder is easy to refill using a Fire Extinguisher Refill Machine, ensuring that your system is always ready to provide reliable fire protection when you need it most.

The FM200 Hanging Fire Extinguisher is designed to be used as part of an Automatic Fire Extinguisher System or Automatic Fire Extinguishing System. With a discharge time of just 8-10 seconds, this fire extinguisher can quickly and effectively suppress fires, helping to minimize damage and keep people safe.

Features:

Product Name: FM200 Hanging Fire Extinguisher

Warranty: 1 Years

Cylinder Color: Red

Type: Automatic

Portable Extinguisher: FM200 Gas Fire Extinguisher

Feature: Clean Gas

This FM200 Hanging Fire Extinguisher is an Automatic Fire Extinguisher System that uses a clean gas to put out fires. It comes with a 1-year warranty and the cylinder is colored red for easy identification. This Portable Extinguisher is part of the FM200 Fire Extinguishing System and can be refilled using a Fire Extinguisher Refill Machine.

Technical Parameters:

Specification	4/6/8/10/20/30kg
Cylinder Material	Carbon Steel
Feature	Clean Gas
Type	Automatic
Discharge Time	8-10 Seconds
Nozzle Type	Spray
Medicament	FM200 Clean Gas
Portable Extinguisher	FM200 Gas Fire Extinguisher
Valve Material	Brass
Package Size	315.00cm * 315.00cm * 360.00cm

This Automatic Fire Extinguishing System uses FM 200 Fire Alarm System and FM 200 Fire Alarm System for efficient and clean fire suppression.

Applications:

The XinLin FM200 Hanging Fire Extinguisher is a highly efficient and effective fire suppression system that is designed to protect enclosed spaces from fire hazards. The FM200 gas fire extinguisher is a portable extinguisher that is designed to be hung from the ceiling and can be easily activated in case of fire. This product is manufactured in Guangzhou and is certified by CCC CE UL, ensuring that it meets the highest safety standards.

The XinLin FM200 Hanging Fire Extinguisher is highly versatile and can be used in a wide variety of application occasions and scenarios. It is ideal for use in data centers, computer rooms, telecommunications facilities, museums, art galleries, archives, and other areas where sensitive electronic equipment is stored. The FM200 gas fire extinguisher can also be used in server rooms, control rooms, and other areas where critical processes are taking place.

One of the key advantages of the XinLin FM200 Hanging Fire Extinguisher is that it is an automatic hanging heptafluoropropane system, which means that it can detect and suppress fires quickly and effectively. The nozzle type is a spray, which ensures that the FM200 gas is dispersed evenly over the entire area, ensuring that the fire is suppressed quickly. The discharge time is 8-10 seconds, which means that the fire will be suppressed before it can cause significant damage.

The XinLin FM200 Hanging Fire Extinguisher is easy to install and requires minimal maintenance. It is also highly portable and can be easily moved from one location to another. In addition, the FM200 gas fire extinguisher can be easily refilled using a fire extinguisher refill machine, ensuring that it is always ready to use in case of an emergency.

The XinLin FM200 Hanging Fire Extinguisher is available at a highly competitive price of \$200 per set. The minimum order quantity is 10 sets, and the packaging details include wooden case packing to ensure that the product is delivered safely. The delivery time is 7-15 days, and the payment terms are T/C. With a supply ability of 10000 sets per week, the XinLin FM200 Hanging Fire Extinguisher is the perfect choice for businesses that need a reliable and effective fire suppression system.

In conclusion, the XinLin FM200 Hanging Fire Extinguisher is a highly efficient and effective fire suppression system that is designed to protect enclosed spaces from fire hazards. It is versatile, easy to install, and requires minimal maintenance, making it the perfect choice for businesses that need a reliable and effective fire suppression system. The FM200 Fire Alarm System is ideal for use in data centers, computer rooms, telecommunications facilities, museums, art galleries, archives, and other areas where sensitive electronic equipment is stored. With its automatic hanging heptafluoropropane system and spray nozzle type, the FM200 Fire Alarm System can detect and suppress fires quickly and effectively, ensuring that your business is protected from fire hazards at all times.

Package Size: 315.00cm * 315.00cm * 360.00cm

□

Customization:

The XinLin FM200 Hanging Fire Extinguisher is a portable extinguisher that uses clean gas to extinguish the fire. The product comes in different specifications ranging from 4/6/8/10/20/30kg. The product is an automatic hanging heptafluoropropane type.

Our product customization services include:

Customized branding with your company logo and name on the product

Customized model number to match your inventory system

Customized certification to meet your local fire safety regulations

Customized packaging to match your branding guidelines

Customized delivery time to meet your urgent needs

Customized payment terms to match your financial preferences

Customized supply ability to match your demand

In addition to the product customization services, we also provide FM 200 Fire Alarm System and Fire Extinguisher Refill Machine to enhance your fire safety system.

Support and Services:

The FM200 Hanging Fire Extinguisher is designed to protect enclosed areas where people may be present, such as computer rooms, telecommunications facilities, and other high-tech environments. It is a clean agent fire suppression system that effectively extinguishes fires without damaging sensitive electronic equipment. The FM200 Hanging Fire Extinguisher is easy to install and maintain, and is

backed by our comprehensive technical support and services.

Our technical support team is available to answer any questions you may have about the FM200 Hanging Fire Extinguisher, including installation, operation, and maintenance. We also offer training programs to ensure that your personnel are properly trained in the use of the system and are able to respond effectively in the event of a fire.

In addition to technical support, we offer a range of services to ensure that your FM200 Hanging Fire Extinguisher is always in good working condition. These services include regular inspections, maintenance, and testing to ensure that the system is functioning properly and is ready to respond in the event of a fire. We also offer repair and replacement services if any components of the system become damaged or need to be replaced.
