FM200 Cabinet Gas Fire Extinguishing System Computer Room Fire Extinguishing Equipment

Our Product Introduction

For more products please visit us on gas-firesuppression.com

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: UL,FM,CMA,CNAS
- Model Number: GQQ40-2.5-XL-002
- Minimum Order Quantity: 1
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Starting Mode: Automatic, Electrical Manual, Mechanical Emergency
- Max Working Pressure: 4.2MPa(+50℃)
- Working Temperature: 0 50℃
- System Blowdown Time: Computer Room ≤8s, Other ≤10s
- Storage Pressure: 2.5MPA(+20℃)
- Fire Extinguishing Design Concentration: 8-10%
- Cabinet Material: Steel
- Pattern Of Extinguishing: Enclosed Flooding
- Highlight: **Computer Room FM200 Cabinet System**, **Gas Fire Extinguishing FM200 Cabinet System**, **Computer Room Fire Extinguishing Equipment**

Product Description

Product Description:

The FM200 Cabinet System is made of high-quality steel, which is highly durable and can withstand harsh environmental conditions. This system is designed to operate in temperatures ranging from 0 to 50℃, making it suitable for use in a wide range of environments. The system is available in three starting modes: Automatic, Electrical Manual, and Mechanical Emergency. This means that the system can be activated in any situation, ensuring that your assets are always protected.

The FM200 Cabinet System is designed to provide a fire extinguishing design concentration of 8-10%. This makes it highly effective in suppressing fires and preventing them from spreading. The system utilizes Heptafluoropropane, which is a highly effective fire extinguishing agent that is safe for people and the environment. It is a clean agent that does not leave any residue, making it ideal for use in areas where sensitive equipment is present.

The FM200 Cabinet System is easy to install and maintain, and it comes with a range of features that make it highly reliable and efficient. The system is equipped with a pressure gauge that allows you to monitor the pressure of the system, ensuring that it is always ready to use. It also comes with a manual release valve that allows you to activate the system manually in the event of an emergency.

In conclusion, the FM200 Cabinet System is an excellent choice for anyone looking for a reliable and efficient fire suppression system. It is designed to protect your assets from the threat of fire and is suitable for use in a wide range of environments. With its high-quality steel construction, easy installation and maintenance, and a range of features that make it highly reliable and efficient, this system is sure to provide you with the peace of mind you need to focus on your business.

Features:

Product Name: FM200 Cabinet System

Storage Pressure: 2.5MPA(+20℃)

Fire extinguishing design concentration: 8-10%

Object: Class A, B, C, E Fires

Max Working Pressure: 4.2MPa(+50℃)

Working Temperature: 0 50℃

Features:

Automatic Fire Extinguisher

Effective for Class A, B, C, E Fires

Stored at a pressure of 2.5MPA(+20℃)

Designed to release FM200 gas at a concentration of 8-10%

Can withstand a max working pressure of 4.2MPa(+50℃)

Operates at a working temperature range of 0 50℃

Technical Parameters:

Product	FM200 Cabinet System
Storage Pressure	2.5MPA(+20℃)
System Blowdown Time	Computer Room ≤8s, Other ≤10s
Cabinet Material	Steel
Max Working Pressure	4.2MPa(+50℃)
Working Temperature	0 50℃
Object of Fire	Class A, B, C, E Fires
Fire Extinguishing Design Concentration	8-10%
Pattern of Extinguishing	Enclosed Flooding
Filling Density	≤1120kg/M³
Starting Mode	Automatic, Electrical Manual, Mechanical Emergency

Applications:

The FM200 Cabinet System is ideal for use in a wide range of applications and scenarios, including data centers, server rooms, archives, museums, laboratories, hospitals, banks, and other facilities where sensitive equipment, documents, or materials need to be protected from fire. The system can be used to protect enclosed spaces of up to 40 cubic meters in size, and is suitable for use in both new and

existing buildings.

The FM200 Cabinet System is certified by UL, FM, CMA, and CNAS, ensuring that it meets the highest standards of quality, safety, and performance. The system has a minimum order quantity of 1, and the price is negotiable based on the order size and delivery location. The system is shipped in a plywood outer box with bubble bag or paper, and has a delivery time of 10-15 working days after payment or receipt of L/C.

The FM200 Cabinet System has a wide range of payment terms, including L/C, D/A, D/P, T/T, Western Union, and MoneyGram. The system has a supply ability of 50000 sets per week, ensuring that it is readily available for use in any application or scenario.

The FM200 Cabinet System has a working temperature range of 0 50°C, and a fire extinguishing design concentration of 8-10%. The system can be started in three different modes: automatic, electrical manual, and mechanical emergency, ensuring that it is easy to use and highly reliable. The filling density of the system is ≤1120kg/M³, and the pattern of extinguishing is enclosed flooding, ensuring that the system can quickly and effectively suppress fires in enclosed spaces.

In summary, the FM200 Cabinet System from Xinlin is a highly efficient and effective FM200 fire fighting system that is ideal for use in a wide range of applications and scenarios. The system is safe, reliable, and easy to use, and is certified by UL, FM, CMA, and CNAS. With a minimum order quantity of 1, negotiable pricing, and a supply ability of 50000 sets per week, the FM200 Cabinet System is readily available for use in any project or facility.

Why choose us:

• Efficient management system
• More than 10 years of experience in gas fire fighting industry
• Advanced equipment and professional engineers
• We provide 8×6 hr technical support and after-sales service

Frequently Asked Questions

Q1Are you a manufacturer or a trading company?
A1: We are the manufacturer.

Q2: Do you have OEM orders?
A2: Yes, according to the customer's requirements.

Q3: Where is your factory located? How do I get there?
A3: Our factory is located in Dongzhou Industrial Park, Xintang Town, Zengcheng District, Guangzhou City, Guangdong Province, China. You are very welcome to visit our factory.
