

120L 2.5Mpa Enclosed Flooding FM200 Automatic Fire Extinguisher

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: UL,FM,CMA,CNAS
- Model Number: GQQ120/2.5-XL
- Minimum Order Quantity: 1
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Volume Of Cylinder: 40L, 70L, 90L, 100L, 120L, 150L, 180L
- Filling Density: $\leq 1120 \text{ Kg/m}^3$
- Storage Pressure: 2.5Mpa +20
- Temperature Range: 0-50
- Packing: Carton Box
- Fire Extinguishing Agent: FM200
- Cabinet Door: Single Or Double Door
- Company Type: Manufacturer Over 10-Years
- Highlight: **FM200 Automatic Fire Extinguisher,
120L FM200 Automatic Fire Extinguisher,
Enclosed Flooding Automatic Fire Extinguisher**

Product Description

120L 2.5Mpa Enclosed Flooding FM200 Automatic Fire Extinguisher

Products Description

The FM200 Cabinet System, offered by Xinlin, is a highly efficient and reliable automatic fire extinguisher designed to protect your valuable assets from fire hazards. This innovative product has a fire extinguishing time of just 10 seconds, making it one of the fastest fire extinguishing systems in the market. The FM200 Cabinet System operates at a working pressure of 2.5MPa, ensuring maximum effectiveness in suppressing fires. It also comes with a single zone management feature, allowing for easy and convenient operation. One of the key advantages of the FM200 Cabinet System is its customizable size, which makes it suitable for a wide range of applications. Whether you have a small office space or a large industrial facility, this system can be tailored to fit your specific needs. With Xinlin as the brand name, you can trust in the quality and reliability of the FM200 Cabinet System. Our team of experts has designed this product to meet the highest safety standards and provide reliable protection against fire accidents. The FM200 Cabinet System is an essential addition to any workplace or establishment that prioritizes the safety of its employees and assets. With its automatic fire extinguishing feature, it can quickly and effectively suppress fires, minimizing potential damages and saving lives.

Product Parameters

Product Name	FM200 Cabinet System
Company Type	Manufacturer Over 10-Years
Pattern Of Extinguishing	Enclosed Flooding
Volume Of Cylinder	40L, 70L, 90L, 100L, 120L, 150L, 180L
Fire Extinguishing Time	10 Seconds
Working Pressure	2.5MPa
Fire Extinguishing Agent	FM200
Zone Management	Single
Color	Red
Working Temperature	0 -50
Automatic Fire Extinguisher	Yes

Packaging And Shipping

Our FM200 Cabinet System is carefully packaged to ensure safe and secure delivery to our customers. We understand the importance of protecting your investment during transportation and have taken all necessary measures to ensure the safety of your product.

Packaging

Our FM200 Cabinet System is packaged in a sturdy cardboard box with protective foam padding to prevent any damage during transit. The box is then sealed with high-quality tape to ensure the contents remain secure. Inside the box, you will find the cabinet system carefully wrapped in bubble wrap to provide extra cushioning. All components, including the FM200 gas cylinders, control panel, and piping, are individually wrapped and secured to prevent any movement during transportation. We also include a user manual and installation guide inside the packaging to provide you with all the necessary information for setting up your FM200 Cabinet System.

Shipping

We offer both domestic and international shipping options for our FM200 Cabinet System. For domestic orders, we use reliable and trusted shipping carriers to ensure timely and secure delivery to your specified location. For international orders, we work with experienced freight forwarding companies to ensure your product is shipped safely and efficiently. We provide all necessary documentation and follow all customs regulations to ensure a smooth delivery process. Our shipping team carefully monitors all shipments and provides tracking information to our customers so they can track the progress of their order. We also offer expedited shipping options for urgent orders. Rest assured, we take every precaution to ensure your FM200 Cabinet System arrives at its destination in perfect condition. Thank you for choosing our FM200 Cabinet System, we are confident that it will meet all your fire suppression needs.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

packing and shipping

The FM200 Heptafluoropropane Cabinet Fire Extinguishing System is packaged using industrial-grade, high-strength corrugated cartons to ensure structural integrity and safety during transportation. Eco-friendly foam and cushioning materials are applied inside the packaging to provide full protection and isolation for the cabinet and internal components, effectively preventing damage caused by vibration or impact.

A detailed installation guide, operation manual, and related technical documents are included inside the package to facilitate quick on-site identification and installation. To accommodate complex logistics conditions, additional protective wooden frames or reinforced outer cartons may be used when required, offering an extra level of protection. All external packaging is clearly labeled with the product name, model, dimensions, weight, and prominent handling marks such as "Fragile" and "Keep Dry." We provide flexible and reliable transportation options, including land, sea, and air freight, to meet the needs of different regions and delivery schedules. A professional logistics team coordinates the entire shipping process to ensure that every set of fire extinguishing equipment is delivered safely and on time to the customer's designated location. Understanding the importance of product integrity upon arrival, we strive for excellence in every aspect of packaging and transportation, aiming to provide customers with a worry-free service from order placement to final delivery.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
