

Single Zone Management Cabinet FM200 Clean Agent Automatic Fire System For Critical Power Distribution Areas

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: UL,FM,CMA,CNAS
- Model Number: GQQ70/2.5-XL
- Minimum Order Quantity: 1
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Volume Of Cylinder: 40L, 70L, 90L, 100L, 120L, 150L, 180L
- Filling Density: $\leq 1120 \text{ Kg/m}^3$
- Storage Pressure: 2.5Mpa +20
- Fire Extinguishing Agent: FM200
- Pattern Of Extinguishing: Enclosed Flooding
- System Startup Method: Automatic,manual,mechanical Emergency Start
- Safety: High
- Body Material: Steel Cylinder
- Highlight: Clean Agent Automatic Fire System,
Automatic Fire System Management Cabinet,
High Safety FM200 Clean Agent

Product Description

Efficient Cabinet-Style FM200 Fire Suppression For Industrial Applications

Products Description

The Heptafluoropropane fire extinguishing gas system is a highly effective fire protection equipment designed to safeguard individuals and property from fire damage. This system features an advanced fire suppression technology that utilizes Heptafluoropropane gas, an eco-friendly and non-toxic gas that quickly extinguishes fire by removing heat and inhibiting the chemical reactions that support the flames. It is suitable for a wide range of applications, including data centers, server rooms, control rooms, archives, museums, and more. The Heptafluoropropane fire extinguishing gas system is an ideal choice for those who prioritize safety and wish to protect their properties from the devastating effects of fire.

Product Paramenters

Technical Parameters	Description
Product Name	FM200 Cabinet System
Power	DC24V/1.6A
Transport Package	Plywood Outer Box With Bubble Bag Or Paper
Installation	Easy To Install
Fulling Density	≤1120 Kg/m3
Spraying Time	Computer Room 8s,others≤10s
Volume Of Cylinder	40L, 70L, 90L, 100L, 120L, 150L, 180L
Fire Protection Level	Class A, B, C Fires
Pattern Of Extinguishing	Enclosed Flooding
Maximum working pressure	4.2Mpa(+20)
Working Temperature Range	0 -50
Key Features	Automatic Fire Extinguisher, Fast Fire Extinguishing Time, High Fire Protection Level

Support and Services

The FM200 Cabinet System is a highly reliable and efficient fire suppression system designed for use in enclosed spaces. Our technical support team is available 24/7 to provide assistance with any issues or questions regarding the installation, operation, and maintenance of the system. In addition to our technical support, we offer a range of services to ensure that your FM200 Cabinet System is operating at peak performance. These services include: System design and engineering Installation and commissioning Preventative maintenance Onsite training System upgrades and retrofits Our team of experts is dedicated to providing the highest level of support and service for your FM200 Cabinet System.

Components

As you can see the instruction of fm200 system as the picture on the right side. Storage cylinder group, storage cylinder group frame, nitrogen driving device, nitrogen driving device frame, the cylinder valve, liquid flow check valve, air flow check valve, electromagnetic starter, gas conveying pipeline, collecting pipe, choice valve, three links, reducer tee, reduceing elbow, flange, safety valve, pressure transmitter, pipe, nozzle, chemicals, fire detector, fire controller, sound and light alarm, alarm bell, gas light, emergency start / stop button, etc.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a

professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
