

Basic Information

Place of Origin: ChinaBrand Name: xinlin

Certification: UL,FM,CMA,CNASModel Number: GQQ100/2.5-XL

Minimum Order Quantity:

• Price: negotiation

Packaging Details: Plywood outer box with bubble bag or paper
Delivery Time: 10-15 working days after payment or receipt

of L/C

Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram

Supply Ability: 50000 sets per week

Product Specification

• Volume Of Cylinder: 40L, 70L, 90L, 100L, 120L, 150L, 180L

Fulling Density: ≤1120 Kg/m3
Storage Pressure: 2.5Mpa +20

• System Startup Method: Automatic,manual,mechanical Emergency

Start

Body Material: Steel Cylinder

Safety: HighZone Management: Single

• Executive Standards: GB16670-2006

Highlight: 100L FM200 Fire Extinguishing System,

Submerged Extinguishing Cabinet, Fully Submerged FM200 Fire Extinguishing

System

Product Description

Efficient Cabinet-Style FM200 Fire Suppression For Industrial Applications

Products Description

The Heptafluoropropane fire extinguishing gas system is an advanced fire protection solution designed to effectively prevent fire damage to both people and property. This system utilizes Heptafluoropropane gas, which quickly suppresses fires by rapidly reducing temperature and interrupting the chemical reactions that sustain the flames. The gas is environmentally friendly, non-toxic, and safe for human health, ensuring that the fire suppression process does not have any adverse effects on users. The system is particularly suitable for environments that require precise protection, such as data centers, server rooms, communication rooms, archives, museums, and more. For those who prioritize safety and want to minimize the risk of fire damage, the Heptafluoropropane fire extinguishing system is the ideal choice for safeguarding valuable assets.

Product Paramenters

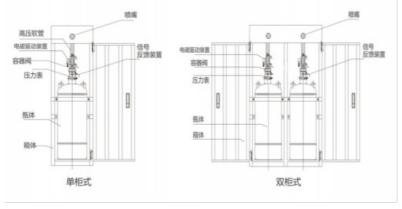

Property	Value
Fire Protection Level	A Class
Material	Steel
Color	Red
Fire Extinguishing Agent	FM200
Pattern Of Extinguishing	Enclosed Flooding
Power Supply	220V/50Hz
Product Name	FM200 Cabinet System
Temperature Range	0 To +50
Fire Extinguishing Design Concentration	8-10
Spraying Time	Computer Room 8s,others≤10s
Automatic Fire Extinguisher	Yes

Applications

Electronic computer room, a data processing center, telecommunications facilities, process control, expensive medical equipment, industrial equipment, library, museum and art gallery, clean room, anechoic chamber, emergency power facilities, flammable liquid storage area, etc. The place where the fire is easy to happen, like paint-spraying production line, aging-electrical equipment, rolling machine, printing machine, oil switch, oil immersed transformer, melt impregnating tank, tank, large generators, drying equipment, cement production process of pulverized coal, and the ship's engine room, cargo hold, etc.

Components

As you can see the instruction of fm200 system as the picture on the right side. Storage cylinder group, storage cylinder group frame, nitrogen driving device, nitrogen driving device frame, the cylinder valve, liquid flow check valve, air flow check valve, electromagnetic starter, gas conveying pipeline, collecting pipe, choice valve, three links, reducer tee, reduceing elbow, flange, safety valve, pressure transmitter, pipe, nozzle, chemicals, fire detector, fire controller, sound and light alarm, alarm bell, gas light, emergency start / stop button, etc.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinetstyle FM200 fire suppression systems, fully automatic fire extinguisher (hanging) portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- · Efficient management system
- More than 10 years of experience in gas fire fighting industry
- · Advanced equipment and professional engineers
- We provide 8×6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
