

Zero ODP Red Steel Automatic Cabinet HFC-227ea Fire Suppression System

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: UL,FM,CMA,CNAS
- Model Number: GQQ150/2.5-XL
- Minimum Order Quantity: 1
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Volume Of Cylinder: 40L, 70L, 90L, 100L, 120L, 150L, 180L
- Filling Density: $\leq 1120 \text{ Kg/m}^3$
- Storage Pressure: 2.5Mpa +20
- Maximum Working Pressure: 4.2Mpa +20
- Extinguisher Class: Class A,B,C Fires
- Packing: Carton Box
- Weight: Varies Depending On Size And Agent Quantity
- Origin: Guangzhou, Guangdong, China
- Highlight: Red Steel Automatic Cabinet HFC-227ea,
Zero ODP Automatic Cabinet HFC-227ea,
HFC-227ea Cabinet Fire Suppression System

Product Description

Zero ODP Red Steel Automatic Cabinet HFC-227ea Fire Suppression System

Products Description

The FM200 Fire Suppression System is an advanced gaseous-fire suppression system that uses clean and environmentally-friendly gas to quickly put out fires. This system is designed to detect heat and smoke, and when triggered, it will release FM200 gas within 10 seconds at a pressure of 7 bar to suppress the fire. This system is free of any residue, and it is non-toxic, making it safe to use in any setting. It is also easy to install and requires minimal maintenance. The FM200 Fire Suppression System is the perfect solution for any fire safety needs, providing an effective and reliable solution to quickly and safely put out fires.

Product Paramenters

Volume Of Cylinder	40L, 70L, 90L, 100L, 120L, 150L, 180L
Filling pressure	2.5 MPa
Extinguishing agent filling density	≤1120kg/m3
Executive Standards	GB16670-2006
System working environment temperature	0 ~50
Item	fire suppression systems fm200
Body Material	Steel Cylinder
Pattern Of Extinguishing	Enclosed Flooding
System startup method	Automatic,manual,mechanical emergency start

Support and Services

The FM200 Fire Suppression System provides a comprehensive range of technical support and services to ensure that your system is installed and maintained to the highest standards:

Site surveys to assess your fire risks and determine the most effective fire suppression solution for your needs

System design and engineering to ensure optimal performance and compliance with relevant codes and standards

Installation and commissioning by certified technicians

Regular maintenance and testing to ensure system readiness and compliance with applicable regulations

emergency support to address any issues or concerns that may arise

Our team of highly trained professionals is committed to delivering exceptional service and support throughout the life of your FM200 Fire Suppression System.

Components

As you can see the instruction of fm200 system as the picture on the right side. Storage cylinder group, storage cylinder group frame, nitrogen driving device, nitrogen driving device frame, the cylinder valve, liquid flow check valve, air flow check valve, electromagnetic starter, gas conveying pipeline, collecting pipe, choice valve, three links, reducer tee, reduceing elbow, flange, safety valve, pressure transmitter, pipe, nozzle, chemicals, fire detector, fire controller, sound and light alarm, alarm bell, gas light, emergency start / stop button, etc.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
