Product Description

Enclosed Flooding FM200 Hanging Automatic Fire Extinguisher For Banking Institutions

Product description

Hanging FM-200 fire extinguisher is a preset and independent fire extinguishing system. It is easily wall or ceiling mounted in the protected area to directly put out the fire, without pipe network distribution. The thermal type hanging fire extinguisher is activated by glass bulb action. When temperature of the protected area rises to rated level, the glass bulb will be broken, and container valve will be opened to spray fire extinguishing agent. There is no need connection with alarm control system.
