

10kg Red Steel Cylinder FM200 Hanging Fire System Automatic Inert Gas Suppression

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: CMA,CNAS
- Model Number: XQQW10/1.6-XL
- Minimum Order Quantity: 1
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Spraying Time: Computer Room 8s others≤10s
- Body Material: Steel Cylinder
- Feature: Clean Gas And Environmental Friendly
- Cabinet Color: Red
- Tank Size: 4L,6L,8L,10L,20L,30L
- Storage Pressure: 1.6Mpa +20
- Operating Temperature Range: 0 -50
- Highlight: Automatic FM200 Hanging Fire System,
10kg FM200 Hanging Fire System,
FM200 Hanging Fire System

Product Description

10kg Red Steel Cylinder FM200 Hanging Fire System Automatic Inert Gas Suppression

Products Description

The FM200 Hanging System is a highly efficient fire extinguishing system that is designed to quickly suppress fires. It is a part of the FM200 Fire Extinguishing System, which is known for its fast response and effectiveness in extinguishing fires. The FM200 Fire Extinguishing System is widely used in commercial and industrial spaces, as well as in critical areas such as data centers and control rooms. The FM200 Hanging System is an important component of this system, providing reliable and efficient fire suppression capabilities.

The FM200 Hanging System is available in three different models - XQQC10L, XQQC20L, and XQQC30L. These models have different capacities and are suitable for different sizes of spaces. The product is designed to be easily installed and can be customized according to the specific needs of the customer. The Hanging System is made from high-quality materials, ensuring its durability and reliability in the event of a fire. It is designed to be compact and lightweight, making it suitable for installation in various locations. Its sleek and modern design also makes it a visually appealing addition to any space. Features and Benefits

Product Parameters

Product Name	FM200 Hanging System
Maximum Working Pressure	2.5 MPa
Storage Pressure (20)	1.6 MPa
Installation	Easy to Install
Place of Origin	Guangdong, China
Structure	Flexible
Maintenance	Low
Model Number	XQQW4/6/8/10/20/30L
Starting Mode	Fixed temperature suspended
Warranty	1 Year
Key Features	FM200 Fire Suppression System, FM200 Fire Alarm System, FM200 Fire Suppression System Cost

Advantages

Though automatic FM200 fire extinguisher -- ceiling mounted style has two kinds of system, but their advantages are the same as followings:

1. Substantial consideration of little protection. Some areas, such as server rooms or electric rooms or the like would be very small, which require little fire extinguishing agent. Then, hanging type system can play its role.
2. Little occupation of space. As the protection zone is very small, so maybe there is no much space to place other machines or devices or objects. Then, the ceiling mounted style is designed with the small but efficient function of fire suppression and overall coverage to the whole room.
3. Convenient installation and transportation. Because of relative light and small figure, even one person can hold and fix it on the top of ceiling or wall. But additionally, the temperature-controlled model cannot be installed more than one piece in principle or practice.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

packing and shipping

The FM200 Heptafluoropropane Cabinet Fire Extinguishing System is packaged using industrial-grade, high-strength corrugated cartons to ensure structural integrity and safety during transportation. Eco-friendly foam and cushioning materials are applied inside the packaging to provide full protection and isolation for the cabinet and internal components, effectively preventing damage caused by vibration or impact.

A detailed installation guide, operation manual, and related technical documents are included inside the package to facilitate quick on-site identification and installation. To accommodate complex logistics conditions, additional protective wooden frames or reinforced outer cartons may be used when required, offering an extra level of protection. All external packaging is clearly labeled with the product name, model, dimensions, weight, and prominent handling marks such as "Fragile" and "Keep Dry." We provide flexible and reliable transportation options, including land, sea, and air freight, to meet the needs of different regions and delivery schedules. A professional logistics team coordinates the entire shipping process to ensure that every set of fire extinguishing equipment is delivered safely and on time to the customer's designated location. Understanding the importance of product integrity upon arrival, we strive for excellence in every aspect of packaging and transportation, aiming to provide customers with a worry-free service from order placement to final delivery.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
