

A Class Fast Respond Cabinet FM200 Fire Suppression For Banks And Financial Institutions

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: UL,FM,CMA,CNAS
- Model Number: GQQ120/2.5-XL
- Minimum Order Quantity: 1
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Fire Extinguishing Agent: FM200/HFC-227ea
- Volume Of Cylinder: 40L, 70L, 90L, 100L, 120L, 150L, 180L
- Filling Density: $\leq 1120 \text{ Kg/m}^3$
- Storage Pressure: 2.5Mpa +20
- Spraying Time: Computer Room 8s others $\leq 10\text{s}$
- Application: Data Centers, Server Rooms, Telecommunication Facilities
- Extinguisher Class: Class A,B,C Fires
- Color: Red
- Highlight: Banks Cabinet FM200, A Class Cabinet FM200, FM200 Fire Suppression Cabinet

Product Description

A Class Fast Respond Cabinet FM200 Fire Suppression For Banks And Financial Institutions

Products Description

One of the key features of this product is its working temperature range, which is between 0 -50 . This temperature range ensures that the FM200 Cabinet System can operate effectively in almost any environment, making it perfect for use in a variety of different settings, including offices, warehouses, factories, and more. The FM200 Cabinet System uses FM200 as its fire extinguishing agent. FM200 is an ideal extinguishing agent due to its excellent fire suppression properties and its ability to quickly extinguish fires without causing damage to the surrounding environment. This makes the FM200 Cabinet System an excellent choice for those who want a fire suppression system that is both effective and environmentally friendly. The FM200 Cabinet System also features zone management capabilities, which means that it is capable of controlling the fire in a single zone. This feature helps to ensure that the fire is contained and does not spread to other areas, which can help to minimize damage and prevent injuries. When it comes to transportation, the FM200 Cabinet System is packaged in a plywood outer box with a bubble bag or paper. This packaging ensures that the product is protected during transport and arrives at its destination in perfect condition. Finally, the FM200 Cabinet System is easy to install, which means that you can have it up and running in no time. This feature is especially important for those who want to ensure that their property is protected against fire but do not have the time or resources to install a complicated system. In summary, the FM200 Cabinet System is an excellent Automatic Fire Extinguisher product that is easy to install, environmentally friendly, and designed to keep your property and people safe from fires. Its working temperature range, fire extinguishing agent, zone management capabilities, and easy installation all make it an ideal choice for those who want a reliable and effective fire suppression system.

Product Paramenters

Storage Pressure(20)	2.5Mpa
Max Working Pressure(20)	4.2Mpa
Size(L)	40.70.90.100.120.150.180
Filling Density(kg/m ³)	η≤1120
Standard	GB16670-2006
Actuator	Solenoid Valve
Pattern Of Extinguishing	Enclosed Flooding
Temperature()	0 ~50
Max Protection Area	≤500m ²
Max Protection Volume	≤1600m ³
Start Way	Automatic, Pneumatic-electrical control, Mechanical emergency operation
Spraying Time	Computer Room 8s,others≤10s

Application

The pipe network type HFC-227ea/FM200 fire suppression system is suitable for a lot of places and several kinds of fires. The followings are some examples for customer as reference:

- Telecommunications and data processing
- Switch gear rooms
- Military applications and cell sites
- High-tech medical application
- Computer rooms
- Telecommunication centers
- Records and data archives
- Testing/imaging equipment
- Reference material
- Chemical laboratories

Components

As you can see the instruction of fm200 system as the picture on the right side. Storage cylinder group, storage cylinder group frame, nitrogen driving device, nitrogen driving device frame, the cylinder valve, liquid flow check valve, air flow check valve, electromagnetic starter, gas conveying pipeline, collecting pipe, choice valve, three links, reducer tee, reduceing elbow, flange, safety valve, pressure transmitter, pipe, nozzle, chemicals, fire detector, fire controller, sound and light alarm, alarm bell, gas light, emergency start / stop button, etc.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8×6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
