

Single Zone Management 70L FM200 Cabinet Fire Extinguishing System With No Residue

Our Product Introduction

for more products please visit us on gas-firesuppression.com

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: UL,FM,CMA,CNAS
- Model Number: GQQ70/2.5-XL
- Minimum Order Quantity: 1
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Volume Of Cylinder: 40L, 70L, 90L, 100L, 120L, 150L, 180L
- Filling Density: $\leq 1120 \text{ Kg/m}^3$
- Storage Pressure: 2.5Mpa +20
- Spraying Time: Computer Room 8s others $\leq 10\text{s}$
- Extinguisher Class: Class A,B,C Fires
- Working Temperature Range: 0 -50
- Pattern Of Extinguishing: Enclosed Flooding
- System Startup Method: Automatic,manual,mechanical Emergency Start
- Highlight: 70L FM200 Cabinet Fire Extinguishing System, Single Zone Management FM200 Cabinet System, 70L FM200 Cabinet System

Product Description

Single Zone Management 70L FM200 Cabinet Fire Extinguishing System With No Residue

Products Description

Cabinet automatic HFC-227ea/FM200(Heptafluoropropane) fire suppression system uses the solenoid valve as the starting mode with the elegant appearance design. The cylinder is placed in the cabinet. For different protection zone, according to the different volume zone to match different size cylinder, which can reduce the occupied area.

- According to different volume size, different extinguishing agent, different starting mode to assemble. • Independent sets, flexible installation, good appearance.
- Without cylinder room, can install in the protection zone, handy and removable.
- Automatic HFC-227ea/FM200(Heptafluoropropane) fire extinguishing system is a set of fire extinguishing, automatic control and fire detection in one system which is the modern intelligent automatic fire extinguishing device.
- HFC-227ea/FM200 (Heptafluoropropane) is a kind of colourless, tasteless, not conduct electricity and no secondary pollution gas. It belongs to a kind of clean extinguishing agent.
- The ozone-depleting potential value is zero.
- Cleanliness, low toxicity, good electrical insulation, higher fire extinguishing efficiency. • It is currently an ideal substitute for the halon extinguishing agent..

Product Parameters

Volume Of Cylinder	40L, 70L, 90L, 100L, 120L, 150L, 180L
Filling pressure	2.5Mpa(+20)
Extinguishing agent filling density	≤1120kg/m3
Fire Extinguishing Design Concentration	8-10
System working environment temperature	0 ~50
Item	fire suppression systems fm200
Body Material	Steel Cylinder
Pattern Of Extinguishing	Enclosed Flooding
Fire extinguishing methods	Fully submerged fire extinguishing

Applications and Scenarios

The FM200 Cabinet System is suitable for a wide range of applications and scenarios, including but not limited to:

Office Buildings: The FM200 Cabinet System is an ideal fire protection solution for office buildings. It can be easily installed in common areas such as hallways, staircases, and lobbies to provide comprehensive fire protection for the entire building.

Retail Stores: With its compact size and easy installation, the FM200 Cabinet System is perfect for retail stores. It can be placed near high-risk areas such as electrical equipment, kitchens, and storage areas to quickly extinguish any potential fires.

Industrial Facilities: The FM200 Cabinet System is also suitable for industrial facilities such as factories, warehouses, and workshops. Its large capacity and high fire protection level make it an effective solution for protecting valuable equipment and materials.

Public Spaces: From schools and hospitals to airports and train stations, the FM200 Cabinet System can be installed in various public spaces to provide quick and efficient fire protection in case of emergencies.

Components

The cabinet type fm200 fire suppression system is very easy to install because of a few components. A system is usually divided into two parts, one is the fire extinguishing device part, and the other is the electrical elements part. Because there is a sole part for introducing the electrical part, so the following words are only for talking about the fire extinguishing device part. The cabinet type fm200 fire extinguishing device consists of fm200 agent, fm200 cylinder, container valve, flexible hose, nozzle and the cabinet.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
