

Small Footprint Red 100L HFC-227ea Cabinet Fire Extinguishing Suppression Clean Agent System

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: UL,FM,CMA,CNAS
- Model Number: GQQ70/2.5-XL
- Minimum Order Quantity: 1
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Fire Extinguishing Agent: FM200/HFC-227ea
- Volume Of Cylinder: 40L, 70L, 90L, 100L, 120L, 150L, 180L
- Filling Density: $\leq 1120 \text{ Kg/m}^3$
- Storage Pressure: 2.5Mpa +20
- Spraying Time: Computer Room 8s others $\leq 10\text{s}$
- Working Temperature Range: 0 -50
- Body Material: Steel Cylinder
- System Startup Method: Automatic,manual,mechanical Emergency Start
- Highlight: 100L Cabinet Fire Extinguishing Suppression, HFC-227ea Cabinet Fire Extinguishing Suppression, Small Footprint Fire Extinguishing Suppression

Product Description

Small Footprint Red 100L HFC-227ea Cabinet Fire Extinguishing Suppression Clean Agent System

Products Description

FM200 Cabinet System is an automatic fire extinguisher system specifically designed to provide superior fire protection for a wide range of hazardous environments. It is equipped with an advanced fire detection and extinguishing system that can quickly detect and extinguish fires, while providing the highest level of protection against Class A, B, and C fires. The FM200 Cabinet System features a single zone management system that can be easily installed without the need for complex wiring. Furthermore, it is equipped with a high-performance working pressure of 2.5MPa, ensuring reliable fire protection. Additionally, the system comes with a robust plywood outer box and bubble bag or paper for secure transport and storage. With its easy installation and superior fire protection, the FM200 Cabinet System is the ideal fire protection solution for any hazardous environment.

Product Paramenters

Product Name	FM200 Cabinet System
Max Filling Rate	1.12kg/L
Working Temperature	0 -50
Actuation	Automatic or Manual Start
Fire Extinguishing Agent	FM200
Pattern Of Extinguishing	Enclosed Flooding
Installation	Easy To Install
Fire Extinguishing Time	10 Seconds
Working Pressure	2.5MPa
Capacity	200 Liters

Fire extinguishing characteristics

High fire extinguishing efficiency; Clean environmental protection, with good cleanliness, completely vaporized in the atmosphere without residue; Economic benefits; Good electrical insulation; Suitable for people to work in the place, basically harmless to human body.

Product Features

Good sealing, with good leakage resistance;
Beautiful appearance, innovative design;
High movement stability, safe and reliable;
Easy to install and efficient.

Components

The cabinet type fm200 fire suppression system is very easy to install because of a few components. A system is usually divided into two parts, one is the fire extinguishing device part, and the other is the electrical elements part. Because there is a sole part for introducing the electrical part, so the following words are only for talking about the fire extinguishing device part. The cabinet type fm200 fire extinguishing device consists of fm200 agent, fm200 cylinder, container valve, flexible hose, nozzle and the cabinet.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200),

IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
