

Easy To Install FM200/Novec1230 Automatic Fire Detection Tube With Red Cylinder

Our Product Introduction

for more products please visit us on gas-firesuppression.com

Basic Information

- Place of Origin: China
- Brand Name: Guangzhou Xinlin Firefighting Equipment Co., Ltd.
- Certification: ISO9001,CE,QMS,CCCF,CNAS
- Model Number: TH-Z-Q-6/2.5/170-XL
- Minimum Order Quantity: 100 set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Capacity: 3KG/4KG/6KG/8KG
- Feature: Clean Gas And Environmental Friendly
- Storage Pressures: 2.5MPa(+20)
- Service Temperature Range: 0 ~50
- Filling Density: 1150kg/M3
- Discharge Mode: Direct,indirect
- Mini Order: 5 Set
- Origin: Guangzhou, Guangdong, China

Product Description

Easy To Install FM200/Novec1230 Automatic Fire Detection Tube With Red Cylinder

Description

The Fire Detection Tube is a revolutionary product that helps detect and suppress fires in various environments. It is designed to provide maximum protection and safety, making it an essential tool for any fire prevention system. The Fire Detection Tube is a high-quality product that is built to withstand extreme conditions. With a maximum working pressure of 4.2Mpa, it is able to withstand high temperatures and pressure, making it suitable for use in a wide range of industries. Durability is one of the key features of the Fire Detection Tube. It is made from high-quality materials that are resistant to fire, corrosion, and other environmental factors. This ensures that the product can last for a long time, providing continuous protection and peace of mind. The Fire Detection Tube is available in a maximum length of 20m, making it suitable for use in large areas. Its long length allows for better coverage and detection of fires, making it more effective in preventing and suppressing them. This makes it an ideal choice for use in warehouses, factories, and other large industrial spaces. The Fire Detection Tube has a minimum order requirement of 5 sets, making it suitable for both small and large-scale use. This makes it a cost-effective solution for fire prevention, as it can be easily purchased and installed in various environments.

In conclusion, the Fire Detection Tube is a highly efficient and reliable product that offers maximum protection against fires. Its high working pressure, durability, length, and minimum order requirement make it a top choice for various industries. Choose the Fire Detection Tube for a safer and more secure environment.

Technical Parameters:

Technical Parameter	Description
Product Name	Fire Detection Tube
Max. Working Pressure	4.2Mpa
Working Temperature	0°C~50°C
Extinguishing Agent	FM200, Novec1230
Actuation	Automatic
Mini Order	5 Set
Storage Pressure(20°C)	Aluminum Alloy
Installation	Easy To Install
Origin	Guangzhou, Guangdong, China
Cylinder Color	Red

Attentions:

After finishing putting out fire, the fm200 fire trace suppression system should have a whole check and refill.

A complete routine check of the fm200 fire trace suppression system should be done at least once a year. If can follow the frequency we suggest in the manual instruction that will be better.

Any problem occurs, we suggest that users should neither touch nor even want to fix it by themselves, but phone us at the first time to tell us that there is a problem and we will send our professionals to fix it as soon as possible.

We suggest that after everything in the protected zone is ready, then can users begin installing the fm200 fire trace suppression system in case of mistaken opening the fire suppression system.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are the manufacturer.

Q2: Do you have OEM orders?

A2: Yes, according to the customer's requirements.

Q3: Where is your factory located? How do I get there?

A3: Our factory is located in Dongzhou Industrial Park, Xintang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

You are very welcome to visit our factory.
