

## Low Maintenance 5.6Mpa FM200 Fire Extinguishing System Working Temperature Range 0 -50

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: Guangzhou Xinlin Firefighting Equipment Co., Ltd.
- Certification: ISO9001,CE,QMS,CCCF,CNAS
- Model Number: QMQ4.2/100N-XL
- Minimum Order Quantity: 100set
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000 sets per week

#### Product Specification

- Cylinder Volume: 100L、120L、150L、180L
- Feature: Clean Gas And Environmental Friendly
- Storage Pressure: 4.2MPa
- Fire Extinguishing Methods: Total Flooding
- Starting Mode: Automatic, Electrical Manual, Mechanical Emergency
- Working Temperature Range: 0 -50
- Structure: Flexible
- Safety: High
- Highlight: FM200 fire extinguishing system 5.6Mpa, low maintenance FM200 pipe network, FM200 system working temperature 0 -50

## Product Description

### Low Maintenance 5.6Mpa FM200 Fire Extinguishing System Working Temperature Range 0 -50

#### Product description

The FM200 Pipe Network System is a highly efficient and reliable solution for gaseous fire suppression. It is designed to quickly and effectively extinguish fires in enclosed spaces, making it ideal for use in areas such as data centers, server rooms, and control rooms.

#### Ambient Temperature

The FM200 Pipe Network System is designed to operate in temperatures ranging from 0 to 50 , making it suitable for use in a wide range of environments.

#### System Starting Mode

The FM200 Pipe Network System offers three starting modes: automatic, electrical manual, and mechanical emergency. This allows for flexibility in operation and ensures that the system can be activated in any situation.

#### Power

The FM200 Pipe Network System is powered by a DC24V/1.6A power source, providing a stable and reliable energy supply for the system.

#### Type

The FM200 Pipe Network System is classified as a gaseous fire suppression system, using FM200 gas to quickly and effectively suppress fires. This type of system is preferred for its non-toxic and non-corrosive properties, making it safe for use in environments with sensitive equipment or valuable assets.

#### Technical parameter

Attribute	Value
Product Name	FM200 Pipe Network System
Storage Pressure	4.2Mpa
Warranty	1 Year
Brand Name	Xinlin
Structure	Flexible
Ambient Temperature	0 ~50
Fire Extinguishing Design Concentration	8-10
Specification	FM200 Clean Agent
Color	Red
System Starting Mode	Automatic, Electrical Manual, Mechanical Emergency
Safety	High

#### Support and Services:

##### Technical Support and Service

Our FM200 Pipe Network System is designed to provide complete fire protection for your facility. We understand the importance of this system and are committed to providing the best technical support and service to ensure its proper functioning.

##### Technical Support

Our team of experienced engineers and technicians are available to provide technical support for any issues or queries related to the FM200 Pipe Network System. We are equipped with the latest technology and tools to troubleshoot and resolve any technical problems that may arise. In addition, we offer on-site training for your facility's maintenance team to ensure they have a thorough understanding of the system and are able to perform routine checks and maintenance.

##### Service

We offer a comprehensive service package for the FM200 Pipe Network System to ensure its optimal performance and longevity. Our service includes regular inspections, maintenance, and refilling of the FM200 agent to ensure it is always ready for use in case of a fire emergency. In the event of a fire, our team will also provide emergency response services to ensure the system is activated and functioning properly. We understand the critical nature of fire protection and are committed to providing prompt and efficient service to minimize any potential damage.

#### Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic FM200 extinguishers (ceiling-mounted), IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

### Frequently Asked Questions

---

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
