

Xinlin Automatic FM200 Fire Cabinet System With High Performance

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: UL,FM,CMA,CNAS
- Model Number: GQQ100/2.5-XL
- Minimum Order Quantity: 1
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 50000 sets per week

Product Specification

- Volume Of Cylinder: 40L, 70L, 90L, 100L, 120L, 150L, 180L
- Agent: Fm200(htc-227ea Or Heptafluoropropane)
- Filling Density: $\leq 1120 \text{ Kg/m}^3$
- Storage Pressure: 2.5Mpa +20
- Origin: Guangzhou, Guangdong, China
- Maximum Working Pressure: 4.2MPA(+50)
- Cabinet Color: Red
- Feature: Easy Installation, Flexible
- Highlight: **automatic FM200 fire cabinet system, high performance FM200 cabinet, FM200 fire suppression system**

Product Description

Xinlin Automatic FM200 Fire Cabinet System With High Performance

Products Description

The cabinet-type FM200 fire extinguishing system is an efficient and environmentally friendly automatic fire suppression system that uses FM200 (HFC-227ea) as the extinguishing agent. It is widely used for protecting high-value equipment and flammable environments, such as data centers, electrical facilities, and communication rooms. The system features a cabinet design that integrates components like the extinguishing agent bottle group, electromagnetic drive device, and piping system, with manual, electric, and mechanical emergency activation modes. It quickly and effectively extinguishes fires without causing pollution to equipment or the environment after use. With a zero ozone depletion potential (ODP) and low toxicity, it is considered an ideal environmentally friendly fire suppression solution.

Product Paramenters

item	value
Place of Origin	Guangzhou, Guangdong, China
Volume Of Cylinder	40L, 70L, 90L, 100L, 120L, 150L, 180L
Brand Name	Xinlin
feature	Easy operation, easy installation
Storage Pressure	2.5Mpa(+20)
Maximum working pressure	4.2Mpa(+20)
Working Temperature Range	0 -50
Pattern Of Extinguishing	Enclosed Flooding
Safety	High

Device overview:

This device does not have a bottle storage room, and the storage bottles and the entire system are set up in a protected area, suitable for larger protected areas such as computer rooms, archives, valuable warehouses and telecommunications centers. A cabinet type FM200 device can also be used in conjunction to protect larger protected areas.

This device can be connected to the fire control system or equipped with a separate automatic fire extinguishing controller to form a system, providing users with convenient and flexible choices.

For completed buildings, it is necessary to add a fire extinguishing system, and it is more appropriate to choose a cabinet type FM200 fire extinguishing device.

Components

As you can see the instruction of fm200 system as the picture on the right side. Storage cylinder group, storage cylinder group frame, nitrogen driving device, nitrogen driving device frame, the cylinder valve, liquid flow check valve, air flow check valve, electromagnetic starter, gas conveying pipeline, collecting pipe, choice valve, three links, reducer tee, reducing elbow, flange, safety valve, pressure transmitter, pipe, nozzle, chemicals, fire detector, fire controller, sound and light alarm, alarm bell, gas light, emergency start / stop button, etc.

Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
