

## Flexible Structure FM200 Hanging System Clean Agent Fire Suppression System

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: ISO9001,CE,QMS,CCCF,CNAS
- Model Number: XQQW8/1.6-XL
- Minimum Order Quantity: 2set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 30000 sets per week

#### Product Specification

- Volume: 4L,6L,8L,10L,20L,30L
- Agent: FM200 (Heptafluoropropane)
- Storage Pressure: 1.6MPa
- Ambient Working Temperature: 0 50
- Spraying Time: Computer Room 8s others≤10s
- Toxicitylevel: Low Toxicity To Humans
- Discharge Time: 8-10 Seconds
- Object: Class A, B, C, E Fires

## Product Description

### Flexible Structure FM200 Hanging System Clean Agent Fire Suppression System

#### Product description

- HFC-227ea/FM200 (Heptafluoropropane) is a kind of colourless, tasteless, not conduct electricity and no secondary pollution gas.
- The ozone-depleting potential value is zero.
- Cleanliness, low toxicity, good electrical insulation, higher fire extinguishing efficiency.
- It is currently an ideal substitute for the halon extinguishing agent.
- According to different location size, different capacity, different extinguishing agent, different starting mode to assemble.

#### Technical parameter

Usage:	FM200 Fire Suppression System
Weight:	6kg, 8kg, 10kg, 20kg, 30kg
Brand Name:	Xinlin
Maximum filling density	≤1000kg/m <sup>3</sup>
Storage Pressure (20℃):	1.6MPa
Discharge Time:	≤10s
Place of Origin:	Guangdong, China
Transport Package:	Plywood Outer Box With Bubble Bag Or Paper
Maintenance:	Low
Ambient temperature of the protected area	+O 50

#### FM200 Fire Suppression System:

The FM200 Fire Suppression System is a highly effective and environmentally friendly solution for fire protection. It uses FM200 gas as the extinguishing agent, which is a colorless, odorless, and electrically non-conductive gas. The FM200 gas is stored in pressurized cylinders and automatically discharged into the protected area when a fire is detected. It works by reducing the oxygen level in the fire, therefore, suppressing it quickly without leaving any residue or damaging the equipment. It is especially suitable for areas where water-based fire suppression systems are not suitable, such as places with sensitive electronic equipment, irreplaceable assets, or where water damage could be catastrophic. The FM200 Hanging System is a simple and effective solution for fire protection in these scenarios.

#### Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

### Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

### Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
